ST. AUGUSTINE - ST. JOHNS COUNTY AIRPORT AUTHORITY

Regular Meeting

held in The Conference Center, Meeting Room B

4730 Casa Cola Way

St. Augustine, Florida

on Monday, June 21, 2021

from 4:00 p.m. to 5:34 p.m.

BOARD MEMBERS PRESENT:

BRUCE MAGUIRE, Chairman SUZANNE GREEN JUSTIN MIRGEAUX REBA LUDLOW ROBERT OLSON

ALSO PRESENT:

DOUGLAS N. BURNETT, Esquire, St. Johns Law Group, 104 Sea Grove Main Street, St. Augustine, FL, 32080, Attorney for Airport Authority.

EDWARD WUELLNER, A.A.E., Executive Director.

> JANET M. BEASON, RPR, RMR, CRR St. Augustine Court Reporters 17 Pacific Street, Suite B St. Augustine, FL 32084 (904) 825-0570

1	PROCEEDINGS
2	CHAIRMAN MAGUIRE: Time to get started.
3	(Pledge of Allegiance.)
4	MEETING MINUTES & FINANCIAL REPORT ACCEPTANCE
5	CHAIRMAN MAGUIRE: All right. The minutes and
6	the financial report. Did everybody read the
7	minutes, I hope? Anybody have any
8	MS. LUDLOW: I read every word of the minutes.
9	I didn't know if it's my turn to talk.
10	CHAIRMAN MAGUIRE: Did you eat some go juice
11	or something this morning or
12	MS. LUDLOW: Double coffee.
13	CHAIRMAN MAGUIRE: Yeah. All right. Anybody
14	have any comments, changes, or modifications to the
15	minutes? I thought that was on. Cindy takes care
16	of all of us, thank goodness.
17	MS. LUDLOW: Believe me.
18	CHAIRMAN MAGUIRE: Any changes to the minutes?
19	Okay. Let's wait. Here comes Suzanne. We'll let
20	her come in.
21	(Ms. Green enters the meeting.)
22	MS. LUDLOW: Oh.
23	MS. GREEN: I had a 3:45 court hearing.
24	CHAIRMAN MAGUIRE: We're addressing the
25	minutes. Do you have any changes or modifications?

1 MS. GREEN: I did not.

2	CHAIRMAN MAGUIRE: Okay. The minutes will
3	stand as presented. Financial reports acceptance.
4	Any changes/questions on the financial reports?
5	MS. LUDLOW: Well, yes. I mean, how can we
6	have questions on the financial report when he
7	hasn't given the financial report?
8	MR. WUELLNER: You actually have them, but you
9	only have had them a few hours.
10	MS. LUDLOW: You're right. So I do have them
11	and, yes, I have questions.
12	CHAIRMAN MAGUIRE: Okay.
13	MR. WUELLNER: Okay.
14	MS. LUDLOW: So I don't know if this is the
15	time to
16	CHAIRMAN MAGUIRE: This is the time.
17	MS. LUDLOW: Would somebody else do it first?
18	CHAIRMAN MAGUIRE: No, you're the only one.
19	MR. MIRGEAUX: Financial reports, do you mean
20	the May financial statements or do you mean the
21	budget?
22	CHAIRMAN MAGUIRE: The ones that were sent
23	out.
24	MS. LUDLOW: I Justin, I can't hear you.
25	MR. MIRGEAUX: So there's

1 MS. LUDLOW: I can't hear you. 2 MR. MIRGEAUX: -- two sets of financial 3 reports out. 4 MS. LUDLOW: Yes. 5 MR. MIRGEAUX: One is the annual budget for 6 next year --7 MS. LUDLOW: Yes. 8 MR. MIRGEAUX: -- and one is the May report --9 CHAIRMAN MAGUIRE: Yeah. 10 MS. GREEN: Correct. 11 MR. MIRGEAUX: -- which is -- you want -- you 12 want --13 CHAIRMAN MAGUIRE: Well, we'll do the May 14 report first. Any questions on the -- did you get everything on the e-mails? 15 16 MS. LUDLOW: I have notes on every line. 17 CHAIRMAN MAGUIRE: Okay. Well, let's go 18 through them. MS. GREEN: The budget or the May one? 19 20 MS. LUDLOW: Pardon me? 21 MS. GREEN: The May -- the May report? 2.2 MS. LUDLOW: Yes, I do. 2.3 MS. GREEN: Okay. I just want to follow you. 24 Okay. 25 MS. LUDLOW: I do have notes on the May, see?

1 CHAIRMAN MAGUIRE: All right. Start asking. 2 MR. WUELLNER: Not -- not the budget ones, the 3 other ones. 4 MS. GREEN: Right. MS. LUDLOW: Oh, okay. Not the budget. 5 6 MS. GREEN: Huh-uh. 7 MR. WUELLNER: You'll get your chance in a minute on those. 8 9 MS. LUDLOW: Okay. Not -- hold on. I go over everything. Not the balance sheet. Not the 10 11 financial statement. 12 Okay. I'm good. MR. WUELLNER: So you don't? 13 14 MS. LUDLOW: Not the budget. The -all right. Hold on. This is the meeting. Here's 15 16 the Passero and the profit and loss. Operating. 17 Operating. Carry on. 18 CHAIRMAN MAGUIRE: Okay. No -- no comments. 19 The financial statements will stand as presented. 20 AGENDA APPROVAL 21 CHAIRMAN MAGUIRE: All right. Agenda 22 approval. Any changes to the agenda, additions, deletions? 2.3 24 MS. GREEN: No, sir. 25 CHAIRMAN MAGUIRE: Then they will stand as

presented. Jump right into staff reports. 1 2 STAFF REPORTS 3 MR. WUELLNER: Thank you. I've got just a few 4 items to call your attention to. On the new 5 T-hangar projects, we've pretty much wrapped up 6 all -- all work on that project. The landscape was 7 the last thing in and we just recently planted how 8 many -- how many trees was it, Kevin? MR. HARVEY: 35. 9 MR. WUELLNER: 35 new trees in that general 10 area. And we're beginning the project closeout at 11 12 this time, so it should be once and for all 13 complete there. 14 Taxiway Delta, that work continues on the 15 subbase and base at this point. They are for the 16 most part working east to west, although there are 17 some -- are some exceptions to that. The 18 electrical crew is out here now beginning their reel installation. They've been out doing a bunch 19 20 of prep work, but they are out doing install now. 21 We are looking -- the last formal schedule has 22 paving to begin the week of the 14th of July. I 23 would not hold my breath on that, considering we 24 are -- have already lost three days in the last 25 five for weather and I suspect we'll lose most of

1 this week.

2 A big issue being getting lime rock material 3 on to the job site. The mine locations are for the 4 most part under water, so very little product is 5 getting out of those pits. And then of course 6 there's been an ongoing -- if you're not aware of it, but an ongoing trucking issue in --7 8 particularly in northeast Florida, being able to get dump trucks to even move materials between job 9 sites and mines and the like. So that's been a 10 11 very slow, almost painful process getting material 12 on the job site. But in terms of progress, when the materials 13

are here, it's going very quickly. Still don't see, you know, significant delay. I was commenting to Mr. Mirgeaux that we are on -- we are still providing access -- there are access methods for virtually I believe everyone in the T-hangar area at this point has the ability to get in and out of their units.

So we're not really causing significant stress on the -- on the users here, however, it's less than optimal and hopefully we'll get -- get through this in the next month or so and be back on -- back on paved ground and everybody significantly 1 happier.

2	One more just side kind of note. We will be
3	meeting "we" meaning myself and our airline
4	consultant will be meeting with I think we've
5	got five airline meetings scheduled for Wednesday
6	and Thursday of this week down in Orlando.
7	So we'll report back to you on what those
8	results are. And the timing couldn't be better, it
9	will be just about a month and a half ahead of our
10	hosting that in August still. At your July
11	meeting, we'll update you on that schedule and get
12	additional times with you guys to go over we had
13	promised last time we'd get kind of a quick meeting
14	with you and get everybody on the same page
15	relative to carriers that are attending that event.
16	So we'll get that on the calendar with you for
17	probably very early August, would be my guess for
18	an afternoon or part of an afternoon.
19	With that, I'll let Carol update you on
20	legislative and operational update.
21	MS. SAVIAK: Thank you. Hopefully that's a
22	little bit better, hmm? Thank you.
23	Thank you, Ed, for also not mentioning because
24	it was in my report that US DOT/FAA had announced a
25	new round of AIP grants and the NFRA was successful

in securing a \$300,000 grant for Taxiway B rehab
 and design. We had mentioned that a few months
 ago, Mr. Wuellner had, and --

4 MS. LUDLOW: I can't hear you.

5 MS. SAVIAK: We had mentioned the Taxiway B 6 grant application a few months ago and are pleased 7 to be able to report that we were awarded that 8 grant.

9 A few items that I had mentioned in my report 10 were the CDC and U.S. Department of State travel 11 guidances relative to the both international travel 12 and domestic travel, but all fully vaccinated 13 individuals in the U.S. are free to travel again, 14 and we're obviously rapidly looking at expanding 15 that to other countries.

16 On the statewide level, Governor DeSantis had 17 signed the state budget and the aviation work 18 program for the state --

19 (Mr. Burnett enters the room.)
20 MS. SAVIAK: -- was secured at a positive
21 level and also FDOT state transportation work
22 program.

Two other notes was Florida Jobs Growth rate fund was funded at \$74 million and Visit Florida was funded at \$75 million as well, and so those are 1 just positive.

2	We're awaiting review and signature on several
3	of the legislative items that we had followed very
4	closely, including our local bill was which was
5	transmitted to the Governor from the senate on
6	Friday. So hopefully we'll know in the next 15
7	days as to the progress of that, but we expect or
8	anticipate the Governor's approval or at least
9	consent depending on that.
10	So I always try to also get a little
11	operational update, which Kevin always appreciates.
12	I'm smiling when I say this. But in May, the FDOT
13	and FAA renewed our airport license following a
14	successful annual inspection. It's always worth
15	noting. It might be a small thing, but it's
16	actually a very tremendous achievement every year,
17	in my view.
18	MS. LUDLOW: And when was that?
19	MS. SAVIAK: We received the license in May.
20	MS. LUDLOW: Okay.
21	MS. SAVIAK: And that's all I have.
22	CHAIRMAN MAGUIRE: What do they normally
23	inspect in that annual? What items?
24	MR. WUELLNER: Let's call Kevin up and let him
25	explain.

CHAIRMAN MAGUIRE: Kevin. We don't get him up
 enough.

3 MR. WUELLNER: No, we don't. 4 MR. HARVEY: There's a good reason for that. 5 Depending on which entity is providing the 6 inspection that year, it's normally FAA does the 7 annual Part 139 inspection, which usually encompasses what we really need. FDOT will perform 8 9 it if FAA is not able to, like this year they weren't out doing the inspection, so FDOT comes in 10 and makes sure we're meeting the minimums. 11 12 So, FDOT will be primarily looking at your approaches. That's their focus. Make sure we 13 14 don't have any -- excuse me, we don't have any obstructions and that type of thing. FAA, you name 15 16 Markings, signs, day-to-day operations, all of it. 17 your recordkeeping and so forth. That's it. 18 CHAIRMAN MAGUIRE: Okay. Thank you. Any questions or comments for either one of our 19 20 speakers? 21 (None.) 2.2 CHAIRMAN MAGUIRE: All right. 23 MS. LUDLOW: I -- Bruce? 2.4 CHAIRMAN MAGUIRE: Yes, ma'am. 25 MS. LUDLOW: I -- I'm sorry, but I did find my

1 financial report, so can I ask a question? Did we
2 vote and approve it yet or --

3 CHAIRMAN MAGUIRE: We've already approved it. 4 You can ask, but we've already approved it. 5 MS. LUDLOW: Well, can -- can he answer? 6 CHAIRMAN MAGUIRE: Yeah. 7 MS. LUDLOW: Thank you. 8 MR. WUELLNER: I hope. 9 MS. LUDLOW: Okay. So -- I'm sorry. So I'm 10 learning, it's only my fourth time. So I looked at this thing under Customs, and 11 12 May 21 is 10,000 and year-to-date is 32,000. So 13 are getting money -- and this is on the profit and 14 loss year to date Page 2. Bruce told me to say that. 15 16 All right. So how is that the -- what do 17 we -- do we get charged for land or do they pay us 18 or what? 19 MR. WUELLNER: The -- you have a long-term 20 operating agreement with U.S. Customs that re --21 it's considered a user fee facility, meaning the 2.2 Airport Authority committed many years ago to pay 2.3 an annual fee to U.S. Customs for their presence 2.4 here. That cost is designed to offset the officer

being here and their cost of doing business on the

1 property.

2	In addition, the Airport Authority provides
3	the building and the related maintenance for
4	U.S. Customs' presence here.
5	MS. LUDLOW: And we use that building for
6	depreciation?
7	MR. WUELLNER: Every facility on the airport
8	is in the depreciation schedule.
9	MS. LUDLOW: I I just can't tell where all
10	the depreciations come in.
11	MR. WUELLNER: Really any building, anything
12	that's been constructed is in the depreciation
13	schedule.
14	MS. LUDLOW: Well, can't we have that
15	itemized?
16	MR. WUELLNER: It is actually itemized. It's
17	just itemized to just a minimal level in this.
18	MS. LUDLOW: Yeah, that was rather broad.
19	Okay. The other was one miscellaneous income.
20	We have \$30,000 in miscellaneous income?
21	MR. WUELLNER: Okay. The a few months
22	back, you approved the agreement with
23	Northrop Grumman for the I'll call it deferred
24	rent, wherein we put that money in an escrow-type
25	account for Northrop Grumman as additional rent,

and then periodically Northrop Grumman draws on
 that fund for significant or large repairs to the
 North 40 complex.

4 So that's -- that's money that's not really 5 ours to use, but it's a part of the rent equation 6 and the expense equation for Northrop Grumman. 7 MS. LUDLOW: Why are we keeping their money? MR. WUELLNER: They asked us to. It's a way 8 of their -- their ability within their governmental 9 10 contracts to facilitate the repairs on the building they're obligated by lease to do. 11 12 MS. LUDLOW: Oh, okay. Lease. Okay. MR. WUELLNER: It's a leased building. 13

14 MS. LUDLOW: Okay. All right.

15 MR. WUELLNER: From us, that is.

16 MS. LUDLOW: Okay.

MR. BURNETT: And -- and if I could, the
security you get out of that is --

MS. LUDLOW: You have to talk loud. I have an ear infection.

21 MR. BURNETT: Sorry. The security you get out 22 of that is that they're paying additional rent for 23 repairs that needed to be done or need to be done 24 in general to update the facility. And so, every 25 month they're paying into the pool so the 1 Airport Authority actually has the money.

2 MS. LUDLOW: So we already have the money. 3 MR. BURNETT: Uh-huh.

4 MS. LUDLOW: Thank you. Okay.

5 All right. On the last page on Page 5, there 6 was a net income of 389, and -- and for the year it 7 was 836. So there's a difference there of 865, 8 \$865,000. So I think I went back and found out 9 that was depreciation, but I'm not sure. Page --10 Bruce told me to say Page 5. But there's a 11 difference of \$865,000.

MR. WUELLNER: No, it's the total ofexpenditures made from October through May.

14 MS. LUDLOW: I got that. That's 836. And 15 then --

MR. WUELLNER: No, no. That's -MS. LUDLOW: And then in May it was 389.
MR. WUELLNER: Correct. Again, that's the
Northrop Grumman draws on their roof repairs.
MS. LUDLOW: So all of our \$865,000 loss is
not depreciation, it is Northrop Grumman?
MR. WUELLNER: It's not a -- I'll clarify

23 that. It is not a loss.

MS. LUDLOW: Well, I know. It looked likeloss to me.

MR. WUELLNER: Yeah, but it's -- again, it's 1 2 the deferred rent equation under Northrop Grumman. It's not our money in the first place. 3 4 MS. LUDLOW: Okay. Well, I'm glad I asked the 5 question. Then -- hold on. I had the page --6 okay. So did I ask about the miscellaneous 7 expense, 380 and 219, and you said that was Northrop Grumman? 8 9 MR. WUELLNER: There's -- on the expense side, it's the withdrawal from the account from 10 Northrop Grumman. On the revenue side, it's the 11 12 deposit from Northrop Grumman into that account. MS. LUDLOW: Okay. And -- okay. CBT service 13 is -- and that is our Customs? 14 15 MR. WUELLNER: Uh-huh. 16 MS. LUDLOW: I wish somebody else had done 17 this. I was counting on you, Bob, to go through 18 this on miscellaneous. Deferred rent. 19 So all -- all of my discrepancies seem to be 20 from -- all my discrep- -- can you guys hear me --21 seem to be Northrop Grumman -- Northrop Grumman 2.2 related. 2.3 MR. WUELLNER: Most of which you asked about 24 is, yes. 25 MS. LUDLOW: Most of them.

1 MR. WUELLNER: Uh-huh. 2 MS. LUDLOW: Okay. So should I get a 3 breakdown of that if it's most of them or not? 4 MR. WUELLNER: Of what? A breakdown of what? 5 MS. LUDLOW: Pardon me? 6 MR. WUELLNER: A breakdown of what? What are 7 you looking for? MS. LUDLOW: Like the miscellaneous expense, 8 9 if you say part of that is Northrop Grumman. 10 MR. WUELLNER: We're happy to provide that --MS. LUDLOW: Good. 11 MR. WUELLNER: -- if you wish it. 12 MS. LUDLOW: Okay. Good. Yes, I do -- I do. 13 I want to see what they're getting and what they're 14 giving us. 15 16 MR. WUELLNER: Okay. 17 MS. LUDLOW: I mean, I -- I'm very basic. I'm 18 sorry, you know, I -- but at least I was chief 19 financial officer for a company. So, yes, I would like a breakdown --20 21 MR. WUELLNER: Sure. 2.2 MS. LUDLOW: -- of the miscellaneous. And --23 and I understand about Customs. And that's my 24 miscellaneous and that's Customs. I think I'm 25 okay, Bruce.

CHAIRMAN MAGUIRE: Okay. 1 2 MS. LUDLOW: I mean Mr. Chairman. 3 CHAIRMAN MAGUIRE: Okay. This is for all the 4 members here. Asking questions to learn is 5 definitely a required issue. So always ask 6 questions if you don't understand, okay? You do not have to wait for a meeting to ask. You can 7 contact the staff at any time if you see something 8 you don't understand. 9 10 MS. LUDLOW: Yes. Thank you. Good idea. I understand. 11 12 CHAIRMAN MAGUIRE: Okay. Any other issues 13 with staff reports? 14 (None.) 15 BUSINESS PARTNER UPDATES 16 CHAIRMAN MAGUIRE: Okay. Let's go on now to 17 business partner updates. Henry Dean, sir. 18 COMMISSIONER DEAN: Well, good afternoon. I 19 hope everything's fine with everyone. We got a 20 little rain today. 21 I want to highlight a couple of things and 2.2 I'll try to be brief, but we had sort of an 23 interesting meeting last Tuesday revolving around 24 primarily beach issues or eroded beaches which in 25 some areas are still pretty bad.

I didn't -- I didn't see a lot of stories about it, so some of you may not have seen the fact that last Tuesday, we approved what we call the FEMA berm.

5 Okay. It is a dune enhancement project for 6 the entire county from Matanzas all the way up to 7 the Duval County line, 42 miles. But it's not 8 every mile; it's selected areas where the beach was 9 most critically eroded during Matthew and Irma.

And it's sort of taking this long to work out an agreement and a number with FEMA, which roughly is \$30 million, to do certain segments -- sections of our critically eroded -- eroded beaches.

14 And this is just a one-time dune enhancement. 15 We refer to it as the FEMA berm, and it starts 16 with -- if anyone has been down to the south end of 17 the county, along our coastline you might see that 18 north of Matanzas Inlet, Summerhouse Condominium is 19 primarily wiped out. I'm talking about coastal 20 erosion. Continuing on, Crescent Beach is actually 21 pretty good on either side of Crescent Beach and 2.2 all the way up to the pier and all the way up to 23 the park, really.

24 Our biggest problems north of Vilano Beach are 25 from roughly the north end of Guana River preserve,

the north boundary all the way up to roughly just beyond Sawgrass or Corona Road. DEP has determined that that stretch, that section, is the most critically eroded in the entire state following Matthew and Irma. So that will also be subject of the dune enhancement under the FEMA program.

7 We were having difficulty -- we don't have 8 access yet. Offshore sand is not yet permitted. We're involved with permitting offshore sand for a 9 10 longer project, a long-term project for beach renourishment. But for the FEMA berm, we're going 11 12 to have to do what's called a truck haul, and we're 13 actually hauling the sand in. The contractor will 14 be truck-hauling it in from around Keystone 15 Heights.

Vulcan, which used to be Florida Rock, has a sand mine called Goldhead there. They'll be trucking in truckloads of sand. And it's going to be an extremely risky process and -- and safety issues if we were limited to only the three individual lots along Ponte Vedra Boulevard.

22 So I suggested to my fellow board members 23 Tuesday that if there's ever a time that we need to 24 use Mickler's Landing parking lot for a staging 25 area, this is it. And the board agreed, and

several environmental activists spoke and agreed
 that if we don't have a beach, there's no need for
 Mickler's Landing parking lot.

So we're going to -- we're going to use
Mickler's Landing parking lot for four to six
months Monday through Friday, but keep it open on
the weekends, to do this dune enhancement under the
FEMA grant. So after several hours of discussion,
we approved that unanimously.

10 The other action we took, you may or may not 11 have heard about. We've been discussing for three 12 years off and on whether or not we should increase 13 the bed tax or the tourist development tax from 14 \$.04 to \$.05 for tourist-related issues, and that 15 requires a super majority vote.

16 So on Tuesday, we did give indication from four of us to move ahead. We had the first 17 18 reading, it's an ordinance. So we're going to come 19 back on July 20th for the final reading of the 20 ordinance. And based on comments made at the 21 meeting Tuesday, I'm anticipating that will pass 2.2 four to one. And if it does, what I recommended, 23 you have to -- if you increase the bed tax \$.01, 24 the next issue is how do you spend it? 25 And there are five categories. And I'll try

to not get into the weeds too much, but I'm recommending to my fellow board members that we break it down this way with for the \$.01.

60 percent to beach renourishment for
Ponte Vedra Beach for that critically eroded area I
just spoke about, 20 percent for marketing, and
20 percent for infrastructure -- recreational
infrastructure like boat ramps, and that is a total
of the \$.01.

10 That provides -- 60 percent provides about 11 \$1.8 million a year for beach renourishment, and 12 then the two 20 percenters each are \$600,000, 13 because the total anticipated revenue from \$.01 14 annually is \$3 million. So it breaks out 1.8, 600 15 and 600.

16 That'll come back. If you -- you or any of 17 your colleagues, friends, neighbors, family have an 18 interest in how this is proceeding, let us know 19 before July 20th. That's our next meeting. We're 20 not having an early meeting in July; we're only 21 having the one meeting on July 20th.

And I'll close with this. The reason that we're having kind of a whoop-de-do on July 20th is for St. Johns County, the -- it's kind of a big thing is that we're celebrating next month our 200th anniversary as a county. I'm sure most of
 you heard about that.

3 But it's kind of a big deal because when Spain 4 invaded Florida, the United States under the treaty 5 with Spain in 1821, July of 1821, on that -- on 6 that conveyance, simultaneously Congress created for the territory of Florida an east county known 7 as St. Johns and a west county known as Pensacola. 8 That was half the state was St. Johns and half the 9 10 state was Pensacola as far as jurisdiction. 11 St. Augustine was the capital of St. Johns County, 12 which took up half the state.

And that all happened in July of 1821. So we're going to have several celebrations. We decided a year ago as a commission not to spend a whole lot of money. We didn't want to spend, you know, \$50,000 or a hundred thousand dollars to celebrate.

So we're doing some -- we're doing a little time capsule at the office on July 21st. We're doing a -- we're having a proclamation. And in fact, the legislature, one of the things they did this session was issue a proclamation recognizing St. Johns County's 200 anniversary as a county. So that's kind of a -- going to be an interesting

1 month.

2	Those are the things I wanted to touch on this
3	afternoon. Are there any questions, Mr. Chairman?
4	CHAIRMAN MAGUIRE: Questions? On the the
5	\$.05, is there a sunset on how that is split up or
6	is that a perpetual?
7	COMMISSIONER DEAN: Well, we the county
8	commission as far as the allocation?
9	CHAIRMAN MAGUIRE: Yes.
10	COMMISSIONER DEAN: We can change that at any
11	time we wish.
12	CHAIRMAN MAGUIRE: I know you can, but is it
13	designated or it is going to be something that
14	three or four or five years, they're still giving
15	60 percent to Ponte Vedra or for beach
16	renourishment?
17	COMMISSIONER DEAN: I mean, it depends on what
18	future commissions decide to do. They can change
19	it at any meeting. So, I mean, it's not perpetual
20	and can be changed as, you know I mean, we may
21	not even get a federal project for Ponte Vedra
22	Beach, but we're I'm anticipating that we will
23	at least for the critically eroded section. But if
24	we don't, there won't be any need to earmark it for
25	that use.

1

## CHAIRMAN MAGUIRE: All right.

2 COMMISSIONER DEAN: And maybe we would even 3 reduce it. I don't know. That's up to the full 4 commission.

5 But we're proceeding ahead -- I think I can 6 speak for the board at this -- because we discussed 7 it Tuesday. We're proceeding ahead with sort of 8 the sinking fund if we start collecting because we're going to need it to match -- we're the local 9 10 sponsor and we're going to need it to match the federal money and the state money, which by the 11 12 way, this session that just ended last month, earmarked or appropriated 3 1/2 million for the 13 14 Ponte Vedra Beach project to match our 3 1/2 million we had already put in. 15 16 So we've actually already now started -started with a fund that now is 7 million and we 17 18 haven't even adopted the bed tax yet to add to 19 that. 20 CHAIRMAN MAGUIRE: Okay. Any other questions? 21 MS. LUDLOW: I do. I wanted to say, I don't 2.2 know if anybody here is -- goes to 2.3 Mickler's Landing because --24

24 CHAIRMAN MAGUIRE: Can you speak into the 25 microphone?

MS. LUDLOW: I don't know if anybody here goes 1 2 to Mickler's Landing, but yes, it's going to be 3 closed for the five days for the equipment, but it 4 is not going to be totally a hundred percent opened 5 on the weekend. It's only going to be partially 6 opened because they're going to store their 7 vehicles there, right? COMMISSIONER DEAN: Yeah. But it will be more 8 than 50 percent open. It will be more like 9 10 75 percent open. But again, my position is pretty simple: 11 12 Without the beach, we can't -- there's no reason to have the parking lot. So, I mean, we're doing the 13 14 best we can with what we've got. CHAIRMAN MAGUIRE: Okay. 15 16 MS. LUDLOW: Thank you, Henry. 17 COMMISSIONER DEAN: Yep. 18 CHAIRMAN MAGUIRE: Okay. Mr. Vinny Beyers? 19 MR. BEYERS: No comment. 20 CHAIRMAN MAGUIRE: No comment? Sam Barresi? 21 Len, are you speaking on behalf of him? 2.2 MR. TUCKER: I am. 23 MS. LUDLOW: He's not in good health. 24 MR. TUCKER: Sam is still out, so I'm Len 25 Tucker and I'll speak on behalf of -- give you a

1 report from the Pilots Association.

2 We were able about two weeks ago to use the 3 facility, had about 60 people at one of our events 4 there and it turned out very well with all the 5 improvements that have been managed in that area. 6 So I think they've done some decorating inside, hung airplanes. It's a very attractive facility, 7 if anybody wants to stop by there and see what the 8 pilots have done to kind of spruce it up. 9

10 The other issue we've got of course is the 11 Taxiway D construction. It just seems to be 12 dragging. Now, I personally was out here flying 13 about three or four times the past two weeks during 14 the week and there was at least one of those days 15 that looked like a very nice day to fly, a very 16 nice day to work, and there was nobody at the site.

17 So I don't know, you know, if you need to 18 encourage them to be a little more proactive, but 19 the rate it's going, it's going to be way past 20 whatever the projections are in terms of getting 21 that thing ready.

And it is a major inconvenience for everybody involved. So I don't know what can be done about that, but certainly doesn't seem like they're dedicated quite as much as I had hoped they would 1 be to the project. Thanks.

2 CHAIRMAN MAGUIRE: Okay. Any comments on 3 that? Okay.

4 MS. LUDLOW: I concur.

5 CHAIRMAN MAGUIRE: Okay. Tammy.

6 MS. ALBIN: Tammy Albin, St. Augustine Tower. 7 Traffic is picking up. We've had multiple 8 days with multiple aircraft backed up waiting to 9 get out. Our traffic count for the month of May 10 was 13,039, giving us a total so far for 2021 of --11 through May was 50,366.

12 If you compare that to 2020, that's when we 13 started slowing down, was at the end of March, and 14 we still were at 57,000 for May of 2020. So we're 15 starting to catch up, starting to get our feet back 16 under us. A majority of it is, well, flight school 17 and corporate jets. There is a noticeable uptick 18 in the corporate aircraft, but other than that.

We're also trying to get back to normal with Operation Raincheck. Given the restrictions for meeting in larger groups, we have one scheduled for Florida Flyers downstairs next Monday night. We also are meeting with SAAPA. They asked for July's meeting, so we're going to meet with SAAPA on July 10th. And then we have -- we're pending a

date with Florida Aviation Career Training. 1 2 If there's anybody else that would like, you 3 know, to attend an Operation Raincheck or any 4 sort -- any sort of update on what we're doing at 5 control tower, you have my number. 6 Any questions? 7 CHAIRMAN MAGUIRE: Yeah, go ahead. MR. OLSON: Yes, I had a couple of questions. 8 Your -- I quess your report suggests that 9 business is picking up a lot. What -- do you have 10 any prediction as to current trends what we might 11 12 be looking at for end of year, full year, as far as operations? I'll -- and let me ask my other part 13 14 to the question. 15 MS. ALBIN: Okay. 16 MR. OLSON: I'm very interested in knowing 17 what percentage of your operations is associated 18 with the flight school and whether touch-and-go 19 training is -- a touch-and-go is counted as an 20 operation. I'm sure -- I assume it isn't, but 21 could you just --22 MS. ALBIN: Actually, flight school training 23 is the majority of what we do. 2.4 MR. OLSON: What percentage would you say? I 25 mean --

1 MS. ALBIN: If you'd --2 MR. OLSON: Over half? 3 MS. ALBIN: Probably. 4 MR. OLSON: Okay. MS. ALBIN: 5 -- safely. 6 MS. LUDLOW: Tell him what an operation is. 7 MS. ALBIN: Depending on the operation --MR. OLSON: 8 Yeah. 9 MS. ALBIN: -- a full stop, when they're just landing, that's one. If they're departing, that's 10 11 one. 12 MR. OLSON: Yeah. MS. ALBIN: But if they're doing a 13 14 touch-and-go, a stop-and-go, a low approach, that's two. That's considered an arrival and a departure. 15 16 MR. OLSON: Okay. So touch-and-goes are 17 counted also. 18 MS. ALBIN: Yeah, as two, two operations 19 per -- per time around. 20 MR. OLSON: Okay. So -- and that's part of the 50 per -- roughly 50 percent. 21 22 MS. ALBIN: Right now, weather depending, 23 we've had -- normally we're right around probably 24 400 to 800 -- almost 800 operations a day. We've 25 had a few days that were definitely 700 pushing

But then when the weather sets in, you know,
 I think over the weekend yesterday was like 146.
 MR. OLSON: So for the year, 130, 150?
 MS. ALBIN: Probably I would say safely 120,
 130.

MR. OLSON: Okay.

6

MS. ALBIN: If we keep going -- like right now
I checked our traffic count today from about 1:00
and we were at like 7,500 for the month, but we've
had several rain days.

So if you consider that plus our 50, that we're looking at almost 60,000 probably by the end of this month, somewhere around there, 58- to 60,000. So -- and that's just first half and we're picking up. So I would say 120-plus would be a very safe estimate.

MR. OLSON: And over the previous year or couple of years, you also mentioned corporate jet activity is increasing.

20 MS. ALBIN: Increasing. It's noticeable. 21 We've had several days where in one hour we've had 22 13, just 13 jet operations land or depart, and 23 that's unusual for one hour.

24 MR. OLSON: And that wasn't related to the 25 golf tournaments or anything?

1 MS. ALBIN: Huh-uh. It's been noticeably 2 picking up for several months. 3 MR. OLSON: Okay. Thank you. 4 MS. ALBIN: And the flight schools have also 5 noticed the uptick in jet traffic. 6 MR. OLSON: Yeah, yeah. 7 CHAIRMAN MAGUIRE: Okay. MS. LUDLOW: And this may be out of line yet, 8 so if Taxiway B is under construction, how is -- if 9 10 Taxiway B is under construction, how is it going to affect the traffic? How is -- how is the tower 11 12 going to fix that? 13 MS. ALBIN: We haven't even discussed it yet. 14 CHAIRMAN MAGUIRE: Okay. Okay. Anything 15 else? 16 (None.) 17 CHAIRMAN MAGUIRE: Thank you, Tammy. 18 All right. Mr. Doug Burnett, sir. 19 MR. BURNETT: Nothing specific to report. 20 Worked on a number of leasing issues this month, 21 and the Lord blessed me with an outdoor shower when 22 I had my suit on earlier today, so hence the casual 2.3 attire now. 2.4 MS. LUDLOW: It didn't mess up your hair. 25 CHAIRMAN MAGUIRE: All right. Let's proceed

1 on to the business items. You have the table
2 there.

3 TAXIWAY B FAA GRANT ACCEPTANCE 4 MR. WUELLNER: Thank you. Really just two 5 items for you today. 6 One is related to Taxiway B. I would point 7 out that the project as -- as it is moving forward is limited to the center section of Taxiway Bravo. 8 So from an operational perspective, it's highly --9 this area encompasses basically Runway 6/24, the 10 area of Bravo between 6/24 and Taxiway Bravo 2, 11 that would be the area that would be constructed or 12 13 reconstructed at this point. So north and south 14 ends of that taxiway would remain fully operational with no construction activity at all. 15 16 Likely, the route around would involve 17 either/or both runways Taxiway Delta, Bravo 2, that 18 are -- they're alternate routes at -- through that 19 time. 20 MS. LUDLOW: I had a hard time with that 21 because --2.2 MR. WUELLNER: It's still a year away. 23 MS. LUDLOW: -- we didn't get the diagram. MR. WUELLNER: I'm sorry? 24 MS. LUDLOW: Passero said there was a diagram 25

1 attached.

2 MR. WUELLNER: The --3 MS. LUDLOW: There was not a diagram attached. MR. WUELLNER: Be easy enough to show you on 4 5 one of the drawings, just so you -- yeah, do you 6 mind? 7 MR. MIRGEAUX: No. It's a little cracked. MR. WUELLNER: That's all right. 8 9 Looking at the airfield map, if you look at this area between here and here as being re --10 repaved. 11 12 MS. LUDLOW: You know -- can I talk? Am I out of line? 13 14 CHAIRMAN MAGUIRE: No. 15 MS. LUDLOW: I understand that, flying here 16 for 25 years. But wasn't there a time that we 17 planned a high-speed arm to come off Taxiway B? I 18 can look it up. MR. WUELLNER: There was an old -- in an old 19 20 master plan version one programmed. MS. LUDLOW: Yes, yes. Okay. So, go ahead. 21 22 Go ahead. I have questions. 23 MR. WUELLNER: It's just proven not to be 24 needed. But right now it's simply a -- I would 25 describe it as a mill and overlay project as well

as an upgrade to lighting from what is likely 1 2 quartz lighting to LED lighting out there, which is 3 certainly better for us on a long-term basis with 4 cost as well as the maintenance side of it. 5 MS. LUDLOW: Okay. I have more about B, but 6 you finish. 7 MR. WUELLNER: Okay. Sure. We were offered and accepted -- as per 8 standing direction I have, which is if we're 9 offered money by FAA, we take money from FAA -- so 10 we executed the 100 percent money -- this is 11 12 100 percent FAA money for the design component only

13 of Taxiway Bravo.

And we also have -- as a part of that grant application, we're required to prepare and show FAA the supplemental or proposed supplemental agreement with our consultant showing where the \$300,000 or how it's spent. That is a Supplemental Agreement 21-98 with Passero. You'll notice the two match because it is only a design grant.

21 So today we're asking you to go ahead and 22 ratify the executive director's action related to 23 the grant, and then secondarily to that is approve 24 the supplemental agreement with Passero, which is 25 SA 21-98, for the like amount of \$300,000. And I'm

1 happy to --

2 MS. LUDLOW: So, I was thinking -- so, we 3 didn't put Taxiway B out for bid, right? 4 MR. WUELLNER: You're -- you're about a year 5 and a half from bidding it. Well, that's not --6 that's not correct. You're at least a year from 7 bidding it. MS. LUDLOW: Okay. So Passero has some kind 8 of contract that they get all of our work --9 10 MR. WUELLNER: Correct. MS. LUDLOW: -- for how many years, five? 11 12 MR. WUELLNER: It's a five-year agreement. 13 We're probably about, I'm guessing here, but about 14 50 percent through that. MS. LUDLOW: Okay. Then that was my next 15 16 question. Is there a cap on that? Because that's \$300,000. 17 18 MR. WUELLNER: You have -- you go through --I'm sorry. On the design itself? 19 20 MS. LUDLOW: Oh, oh. I have it broken down. 21 Yeah, it's 160- -- it's salary cost is 87, overhead 2.2 168 percent direct labor cost is 147 --23 MR. WUELLNER: Right. 24 MS. LUDLOW: -- that's the 235. A fixed fee 25 of 270, and then a non-salary expenses, which I

1 presume is outside contractors --2 MR. WUELLNER: Correct. 3 MS. LUDLOW: -- is 29. So they round it up at 300. 4 5 MR. WUELLNER: Right. 6 MS. LUDLOW: So we don't know if that was 7 competitive or not, because --MR. WUELLNER: You -- yeah. 8 9 MR. BURNETT: I can answer that one. 10 You -- for continuing consultants like engineers, under Florida Statute, you do an RFQ or 11 12 RFP, however you want to terminate -- term -whatever terminology you want to use, whether it's 13 a request for qualifications or request for 14 15 proposals --16 MS. LUDLOW: Yes. 17 MR. BURNETT: -- to get a continuing 18 consultant on staff. So your engineer, you went 19 through -- the Airport Authority went through the 20 competitive process to select Passero. 21 MS. LUDLOW: Okay. 2.2 MR. BURNETT: And so, Passero is there to be 23 the Airport Authority's outsourced engineer. 24 Obviously you could have -- (phone interruption) --25 my apologies.

1 MS. LUDLOW: I hope you guys can hear this 2 because this is an education that has never been 3 explained.

4 MR. WUELLNER: It was explained in your 5 briefing before you even took office. 6 MR. BURNETT: So, you --7 MS. LUDLOW: They don't know it. 8 MR. BURNETT: So you -- so that the engineer then, instead of having one in-house -- and even 9 10 when you have one in-house, for example, this is very common, the county, both cities all still have 11 12 continuing consultants, engineering firms even though they have engineers on staff within their 13 14 government entity.

And so then, once they're on this continuing consultant process, then these additional proposals get processed in connection with additional work that you want them to do.

19 The actual construction effort would not be 20 done with Passero. That would still go out for bid 21 through the usual process where you're required by 22 statute to select the low bidder.

MS. LUDLOW: Okay. Is that it? Thank you,Doug. I understand that.

25 So, how do we know what the final cost is? I

mean, how are we spending \$300,000, and then we're going to add another \$500,000? Don't they give us an estimate of the final cost of the Taxiway B construction?

5 MR. WUELLNER: I think you're blending 6 construction and design in your question. This is 7 simply design.

8 MS. LUDLOW: In design -- well, how would we 9 approve design when the construction might be 10 \$3 million?

MR. WUELLNER: It probably will be. 11 12 MS. LUDLOW: I have a hard time approving 13 design when you don't know what it's going to cost. 14 MR. WUELLNER: We have a pretty good idea 15 because we do a pre-application with FAA. You also 16 programmed the money with FAA. The money is 17 already programmed with FAA to do construction next 18 year. So sometime around this time next year, you 19 will see the results of bidding this project and 20 you will also see an FAA grant covering the amount 21 of the project.

MS. LUDLOW: Okay. So could we not have a -I'm sorry, you guys, but I'm new.

24 Could we not have a progress report of the 25 projects? Like if Taxiway B, then you could say

the 300 is out for bid and what you -- what the 1 2 next estimate is and the money, the money, the 3 money. I mean, we need to know the money at the 4 end. I know you can't say exactly until you get 5 the design. 6 MR. WUELLNER: Of course. 7 MS. LUDLOW: Right. I understand that. But there has to be some connection between design and 8 9 completion. MR. WUELLNER: I'm really struggling with what 10 the question is. 11 12 MS. LUDLOW: Bruce, help me. CHAIRMAN MAGUIRE: Related to your house, if 13 14 your roof falls in, do you have an idea of what your roof's going to cost or do you get an engineer 15 16 to come out and estimate it? 17 MS. LUDLOW: I have to have an engineer or --18 CHAIRMAN MAGUIRE: In other words -- in other 19 words, the design is going to lay out specifics 20 that you don't know exist yet --21 MS. LUDLOW: Uh-huh. 2.2 CHAIRMAN MAGUIRE: -- okay? So, you can --23 based on history and knowledge and experience, you 24 can -- you can estimate in your own mind what it 25 might be doing. Like he just said, it could be

1 \$3 million.

2	But the details, there's no way you can do
3	that until the design is specifically done to meet
4	the criteria and the demands. So you're right, we
5	need to know the the cost, but not at this
6	stage. We are far away from a final cost.
7	MS. LUDLOW: But we we're wasting
8	\$300,000
9	CHAIRMAN MAGUIRE: No.
10	MS. LUDLOW: because it might be a
11	\$5 million project and we'll say we don't want to
12	do that.
13	CHAIRMAN MAGUIRE: It could always be,
14	regardless if it's one million or five, okay? But
15	you don't know until you get there
16	MS. LUDLOW: All right. I understand.
17	CHAIRMAN MAGUIRE: okay?
18	MR. WUELLNER: And just a reminder, on this
19	particular project, this is a hundred percent
20	this is not Airport Authority money; this is
21	100 percent FAA money
22	MS. LUDLOW: Right.
23	MR. WUELLNER: on this job.
24	MS. LUDLOW: Right.
25	MR. WUELLNER: And it's likely, when we get to

construction next year, there's a strong chance the 1 2 construction, the \$3 million component plus or 3 minus would also be 100 percent FAA money. 4 MS. LUDLOW: And that's a really good point. 5 So -- and thank you because I didn't -- I was so 6 tied up on the next one that I didn't remember that 7 this was all FAA. So how much does the -- how much does the Airport Authority have to contribute? 8 9 MR. WUELLNER: We do not contribute anything 10 in this. MS. LUDLOW: Not anything. Not for the design 11 12 nor for the construction. MR. WUELLNER: No. Not at this -- well, 13 14 construction's unknown yet because that's still a 15 year away from knowing that part. 16 MS. LUDLOW: Oh. So it --17 MR. WUELLNER: There's a strong --18 MS. LUDLOW: -- could be that it costs us. 19 MR. WUELLNER: Even if it does, the 20 Airport Authority's share would be limited to 5 percent of \$3 million. 21 2.2 MS. LUDLOW: See there? I learned more. 2.3 5 percent of the total cost? 24 MR. WUELLNER: Total cost. Excluding this 25 engineering, which is -- would already be paid for

1 at a hundred.

2 MS. LUDLOW: I got you. Okay. All right. 3 Thank you. 4 MR. WUELLNER: Sure. 5 CHAIRMAN MAGUIRE: Okay. Any other questions? 6 MR. OLSON: Just maybe a couple of sort of 7 questions/observations. That was -- oh, first off, based on what we 8 were just discussing, preparing a preliminary 9 construction cost is part of the activity of 10 this --11 12 MR. WUELLNER: It is. MR. OLSON: -- so we don't really know what 13 the construction cost is until the engineering 14 work's done. 15 16 I'm surprised to see, but I guess it's FAA regs that allow it, that actually applying for the 17 18 construction -- or applying for the grant is -- is part -- is -- FAA will fund an application for a 19 20 grant --21 MR. WUELLNER: Correct. 2.2 MR. OLSON: -- FAA, which is --23 MR. WUELLNER: Right. 24 MR. OLSON: -- in my experience with other 25 agencies unusual, because that's one thing they

1 don't fund.

2	My other thing is, I guess I'm assuming this
3	is boilerplate, but the first paragraph of the
4	agreement has language to the extent that the terms
5	and conditions herein differ from those in the
6	original agreement, that's the procurement
7	agreement of Passero of Passero, and it was done
8	in 2013.
9	MR. WUELLNER: Uh-huh.
10	MR. OLSON: The terms here will I guess
11	supersede those terms or apply.
12	So, I'm assuming this is sort of standard
13	boilerplate, that there isn't anything substantive;
14	it's on sort of business terms different from the
15	original procurement of Passero? Because we
16	haven't done any competitive procurement
17	MR. WUELLNER: Correct.
18	MR. OLSON: since 2013.
19	MR. WUELLNER: Well, that's not not quite
20	correct. 2018, we brought back the consultant
21	agreement and the Airport Authority basically
22	renewed that contract for an additional five years.
23	MR. OLSON: Right. But it wasn't bid at
24	that rebid at that
25	MR. WUELLNER: It was not bid. No, it was

1 not. You had the option --

2 MR. OLSON: Yeah.

3 MR. WUELLNER: -- at that time to do that.
4 You will not have the option when it comes up next
5 time.

6 MR. OLSON: Yeah. Okay. So there is nothing 7 substantive terms, business terms, that would be 8 important to, I don't know -- that are anchored in 9 the 2013 that this -- that had been changed in this 10 agreement.

MR. WUELLNER: Correct. That is largely true.
The -- there are no basic business terms that
change.

The -- the fundamental of this is you execute a base contract with the consultant, which is the reference here to 2013 and then later '18, but the base document envisions the appending of work or the adding of work to that contract via these supplemental agreements as you get them.

20 So on a job-by-job or a project-by-project or 21 engineering-by-engineering basis, that work is 22 added and made a part of the base contract. So the 23 base contract underlies all of it. The actual work 24 you're asking them to do, design this, design that, 25 is covered with the actual supplemental agreement.

1 MR. OLSON: Okay. So based on what you just 2 said, you really wouldn't need that statement. 3 MR. WUELLNER: I think it's a way of tying the 4 two documents together, the base contract with the 5 supplemental. 6 MR. OLSON: Okay. 7 MR. WUELLNER: That's all. 8 MS. LUDLOW: Okay. One more. 9 When -- we didn't get a design -- a diagram of 10 where it's going to cut off in there. So at any time when they cut off Taxiway B, because 11 12 Taxiway Delta has been a major inconvenience, so will that cut off access to the south 40 when 13 14 they -- when they stop --15 MR. WUELLNER: No, no. 16 MS. LUDLOW: -- that one? 17 MR. WUELLNER: No. There'll be a complete 18 access -- complete paved operational access. 19 MS. LUDLOW: Of course we have complete access 20 now, but... 21 MR. WUELLNER: You do, but that's a little 22 tricky with that kind of project is. 23 MS. LUDLOW: Thank you. 2.4 CHAIRMAN MAGUIRE: Okay. Further questions? 25 (None.)

CHAIRMAN MAGUIRE: All right, sir. So, we 1 2 have one speaker. Len? 3 MR. TUCKER: I have no comments. 4 CHAIRMAN MAGUIRE: Okay. All right. Then any 5 other public comment on Taxiway B? 6 MR. GIMMEL: Do I need to go to the 7 microphone? CHAIRMAN MAGUIRE: You have to go to the --8 9 state your name and address. MS. LUDLOW: And in case we need a doctor in 10 the house. 11 12 MR. GIMMEL: My name is Patrick Gimmel, address 153 Marshall Creek Drive. I'm one of the 13 14 pilots here. I'm just a little bit -- maybe I'm just 15 16 addressing the elephant in the room. So we're talking about 2,000 feet of asphalt taxiway and 17 18 simply the design costs \$300,000? The design of something that's existing? Okay. It doesn't come 19 20 out of our pockets, but I mean, this is just 21 incredible to me. Just -- I'm just throwing this 2.2 out here. 23 CHAIRMAN MAGUIRE: Well, I'll sympathize with

24 you because even if it's FAA money, it's still our 25 money because we pay FAA to give it back to us.

It's an exorbitant amount of money, but I'm 1 2 not the engineer that designs it. And Henry can 3 update now, but when I was a commissioner, to give 4 you an example of projected costs, you couldn't get 5 anybody to put a number and then sign up for on a 6 projection like this, but at one time, to build a 7 road was a million dollars a mile and that was the 8 starting point. But nobody would say -- would put that in writing. We just know it's going to be a 9 million dollars a mile plus, okay? I don't know 10 what it is now. Yes, it's a lot higher. So, the 11 12 point being is that government spends money, 13 period. 14 MS. LUDLOW: But it's my money, too. CHAIRMAN MAGUIRE: Well, you need to talk to 15 16 somebody at a higher level than this table --17 MS. LUDLOW: I understand. 18 CHAIRMAN MAGUIRE: -- okay? 19 MS. LUDLOW: That's why I'm interested, 20 though. And that's a really good point, Bruce, 21 and -- I mean, Mr. Chairman, and thank you. 2.2 CHAIRMAN MAGUIRE: Okay. All right. So no 23 other public comment? Thank you very much for 24 yours. Okay. Bring it back to the board. 25 Discussion, a motion?

1 MS. LUDLOW: I make a motion we approve the 2 Taxiway B Passero \$300,000 design. CHAIRMAN MAGUIRE: Okay. 3 4 MS. GREEN: And the -- and authorize the 5 resolution? 6 MS. LUDLOW: Pardon me? MS. GREEN: To ratify SA 21-98? 7 MS. LUDLOW: That has to be part of the 8 9 motion? 10 CHAIRMAN MAGUIRE: Yeah, there are two 11 elements. 12 MS. LUDLOW: And to ratify... 13 MR. WUELLNER: The grant, the acceptance of 14 the grant. 15 MS. LUDLOW: Right. CHAIRMAN MAGUIRE: Okay. All right. We have 16 a motion. A second? 17 18 MR. MIRGEAUX: I second. 19 CHAIRMAN MAGUIRE: Okay. Second. Any further 20 discussion? MS. GREEN: Other than we understand it's the 21 22 design and the grant. 2.3 CHAIRMAN MAGUIRE: Design and the grant, 24 correct. Okay. All in favor? 25 MS. GREEN: Aye.

1	MR. MIRGEAUX: Aye.
2	MS. LUDLOW: Aye.
3	MR. OLSON: Aye.
4	CHAIRMAN MAGUIRE: Aye. Opposed?
5	(None.)
6	CHAIRMAN MAGUIRE: Okay. Unanimous.
7	MR. WUELLNER: Well, that was supposed to be
8	the easy one.
9	MS. LUDLOW: Yeah.
10	CHAIRMAN MAGUIRE: All right. Business items.
11	Next, Mr. Ed.
12	FY2021-22 BUDGET PREVIEW
13	MR. WUELLNER: Well, we wanted to unlike
14	previous years where we don't get to you with a
15	very preliminary budget until the July meeting and
16	then you're, I'm not going to say up against a
17	timeline but you're right up against the TRIM
18	notification or decision, we we have tried this
19	year to get some numbers on the table to give you
20	an idea of what what we're seeing.
21	It is far from complete. There are elements
22	of this I'm quite comfortable with that it's very
23	near complete, but there are items we simply don't
24	have details yet. Some some of them are larger
25	ticket items to include the airport's property and

liability insurance. Those come due in October - MS. GREEN: That's what I was thinking.
 MR. WUELLNER: -- and we simply cannot get
 those quotes until we're typically within about
 30 days of October 1st. So we can't get those
 firmed up.

7 We have a ballpark. We get pretty good ideas 8 of what those numbers will be, but we don't know 9 those. In fact, we have zero information on that 10 topic yet. So we're essentially using last year's 11 numbers for many of the general operating expense 12 kinds of numbers.

With that said, I'd like to just kind of walk you through where we are and give you an idea of what next year looks like. I'll start with the first page of what we sent you as a handout, which is -- it includes most of the information up here over the next few slides.

But essentially you have fuel service -- the main components of our revenue picture include fuel service, leases, and other agreements. The fuel service includes the self-service that the Airport Authority operates as well as the flowage fee component where we basically collect through all of the flowage or all of the fuel sold through

1 the FBO. So think of it as a cents-per-gallon kind 2 of equation.

3 It's assessed, just for your -- for your 4 edification, the Airport Authority's number is 5 strictly the profit number following self-fuel 6 sales. So it's the cost of goods sold, if you 7 will, subtracted from the revenue, and the profit 8 component is what makes up this line in the budget. 9 So we don't -- we have no way of knowing what the fuel actually costs, and the price as you might 10 guess moves up and down throughout the course of 11 12 the year. This is the expected profit when you look at the net from self-service. 13 14 MR. MIRGEAUX: But it's not based on price, it's based on volume, right? 15 16 MR. WUELLNER: It -- as far as the 17 Airport Authority's, it's based on price 18 ultimately. 19 MR. MIRGEAUX: Oh. 20 MR. WUELLNER: The price less the cost of 21 providing the fuel. Because we still -- while we 2.2 can sell fuel, we still have to buy the fuel to 2.3 resell.

24 So when you do that math equation for the --25 and whatever maintenance might be in the facility, the end result, what you would normally think of as profit, is what is -- makes up the net self-fuel line as far as Airport Authority self-fuel.

4 The next line is the FBO. The FBO's is 5 generated differently -- and I'm only taking the 6 time here to explain it; we won't go through this 7 every time -- but the FBO's is a function of when they buy wholesale; in other words, when they 8 deliver, this is a very rough number, but about 9 8,000 gallons of fuel, whether it's jet fuel or 10 avgas, at that time the Airport Authority basically 11 12 is entitled to collect, will collect 16 1/2 cents per gallon on that fuel as it's delivered. 13

14 So we -- we've taken the onus over it many years ago back in 2005, I believe, we stopped doing 15 16 it on the retail side, meaning it's keeping 17 transaction-by-transaction level kinds of 18 equations. We do it now at the time of delivery 19 into the fuel farm. So it's a much simpler and 20 fewer trans -- fewer number of transactions over 21 the year.

At the end of the day, you're looking at 16 1/2 cents per gallon. That generates about \$247,500 projected for next year, based on the gallonage that looks to be about 1.5 million

1 gallons of -- of fuel being pumped by the FBO. So 2 if you do that simple little math, you'll come up 3 with 247,500. So total fuel sales next year 4 revenue to the Authority is about \$361,948 -- 46.

5 All right. We have one or two class --6 reclassifications under the heading of leases. A 7 couple of actual hangar locations -- these do not 8 apply to T-hangars, but just some of the bigger buildings, have changed in characteristic from, 9 10 say, corporate storage to a commercial use or a 11 commercial use to corporate storage. So you see a 12 little bit of variance within there. The totals 13 don't particularly change much, but where they're classified in our -- in our chart of accounts does. 14

15 So that's why you see -- for instance, on the 16 corporate line, you'll see that nudge downward, but 17 if you look correspondingly at the line above it, 18 you'll see it nudged upwards. That's why.

Major lease, relatively the same for next year. It does include what was the agreement the Airport Authority arrived at with Grumman at the end of last year. So it includes a bit of an uptick on the Grumman components of the -- of the real lease, not the -- what we were talking about earlier, which is the repair account, if you will. MS. LUDLOW: I got you.

1

5

2 MR. WUELLNER: So this is -- this is money 3 that the airport can spend. This is their money as 4 a function of lease.

MS. LUDLOW: Right.

6 MR. WUELLNER: Then the other classification 7 and then rental.

8 Rental covers all of our -- all of our 9 agreements that are one year or less in duration. 10 So all of the T-hangars and probably a handful of 11 other smaller lease agreements are included in the 12 other -- I'm sorry, in the rental classification.

The other classification includes -- I believe 13 14 it's right now limited to about three leases, and they're ground leases. So they're only -- there 15 16 are no buildings involved. It's -- it's ground lease, part of -- a major component of that is, 17 18 again, a ground lease to Northrop Grumman. So there's about 150-ish, 160,000 of that number I 19 20 believe is the ground component of that number. 21 MS. LUDLOW: I got you. Okay. 2.2 MR. WUELLNER: For a total of about 23 \$3.811 million in lease revenue.

24 Other agreements including use fees, which are 25 things like rental cars, property uses, any 1

2

other -- any other kind of agreement in the course of a year adds up to another \$84,000, thereabouts.

So the total revenue picture this year looks 3 at, if we were to collect everything we project, at 4 5 \$4,258,434. Statutorily, you'll see we adjust that 6 downward by 5 percent. So we subtract 5 percent of 7 that number, which is a little over \$200,000. That gets subtracted out of that equation. So the total 8 revenue available to the Authority to budget is 9 about \$4,045,812 as it sits today. 10

We will continue to look at that as we go into July and into September. Historically, that's not the side of the equation that will probably move much, if at all.

Now, getting to the expense side quickly.
Personnel and benefits, you are unfortunately a
little bit of a victim of the Florida Statute
adjustments this year on the cost to the -- the
Authority's contribution to retirement.

The FRS, the legislature decided they would increase those rates this year. That translates all the way down to every governmental entity in the state of Florida that's in the Florida Retirement System. So that is an uptick of

25 probably averaging around 2 to 3 percent when you

go across all of the qualifications. So that's 1 2 where the major uptick is in personnel. There is 3 in the budget about a 3 percent -- it's budgeted at 4 3 percent uptick in general salary-related items. 5 The -- the only variable I see in personnel 6 right now is, again, as we won't have this number 7 until we get closer to September, but is the actual cost for health-related insurances for employees. 8 We just won't have that renewal information for 9 10 another probably 45 days. MR. MIRGEAUX: Is it forecast in here? 11 12 MR. WUELLNER: It is forecast, but I -- you 13 know, it is just that. 14 MR. MIRGEAUX: Okay. MS. GREEN: We've had significant --15 16 MR. WUELLNER: Yeah. I mean, we've been hit 17 heavily --18 MS. GREEN: -- but we don't know what hits us. 19 MR. WUELLNER: Last year, it was quite benign. 20 It was just a percent, a percent and a half, I 21 think. But we've had 20 percent years --2.2 MS. GREEN: Uh-huh. 23 MR. WUELLNER: -- under that specific 24 classification. So I -- I don't -- I don't know 25 what to expect in the -- at the end of the day.

Airline operations, you see we have no 1 2 expenses budgeted against the current -- yes, sir? 3 MR. OLSON: Yeah, question about airline 4 operations. Since you of course -- I quess 5 appropriately now is zero for both revenue or 6 income and expenses. 7 When we had, for example, Frontier here, was that a net negative to Authority --8 9 MR. WUELLNER: No, it's a net positive to the 10 Authority. MR. OLSON: It was? 11 12 MR. WUELLNER: Yeah. 13 MR. OLSON: Okay. 14 MR. WUELLNER: You're also missing the revenue component. So right now, it's a zero revenue, zero 15 16 expense item. As service were to return, you'd see 17 a revenue item, we'd come and talk to you and tell 18 you what we project on that because we'd have to 19 incur some expenses against it, too. 20 MR. OLSON: Even though some of the support 21 that the Authority provided for, for example, 2.2 Frontier, it was still -- that wasn't -- it was 2.3 still a net positive. 24 MR. WUELLNER: Yes, absolutely. 25 MR. OLSON: Okay. Well, that's good to know.

So in addition to the benefit of scheduled 1 2 commercial air service, there's a financial gain. 3 MR. WUELLNER: There is. And there's also 4 the -- I like to emphasize, but there's always the 5 additional benefit, it's about a year delay in 6 getting it, but at that point with commercial 7 service, we're also entitled -- in the entitlement 8 program at that point with FAA guaranteeing the airport a minimum of \$1 million of grant funds for 9 10 capital projects with having commercial service. MS. GREEN: With enplanements, right? 11 12 MR. WUELLNER: Yeah. As a GA airport, we're only guaranteed \$150,000 a year. So it's a 13 14 significant uptick --15 CHAIRMAN MAGUIRE: Significant. 16 MR. WUELLNER: -- with having it. 17 MS. LUDLOW: And I have a question -- are you 18 done, Bob? 19 MR. OLSON: Yeah. 20 MS. LUDLOW: About the essential air service, 21 the EAS, so if we get a small airline in here, 2.2 didn't I read that our obligation was a million 2.3 dollars a year for two years? 2.4 MR. WUELLNER: We -- we discussed that a 25 couple of meetings back before the application, but

the way that would work is you would have a federal 1 2 grant for approximately, I think it was 60 to 3 70 percent of the \$1 million. You also have 4 outsourced money, non-Authority money, that has the 5 balance of that, and that's coming -- would come 6 from the VCB. 7 MS. LUDLOW: Okay. So -- oh, okay, the VCB. MR. WUELLNER: Yes, locally. It requires a 8 9 local match.

10 MS. LUDLOW: Oh, okay.

11 MR. WUELLNER: But they've agreed to support 12 as a minimum revenue guarantee should that be a 13 condition of getting service.

14 MS. LUDLOW: Okay. So --

MR. WUELLNER: We do not have that grant either, yet. That -- we're still awaiting that award.

18 MS. LUDLOW: Okay. I got it. Thank you.19 CHAIRMAN MAGUIRE: Okay.

20 MR. WUELLNER: Sure. As I said, most of these 21 expenses are near identical from last year. That's 22 the area we've not been able -- we've not 23 completely dug into, so that's where any 24 adjustments are likely to happen within the next

25 month or so when we get back out here in July with

1

a revised version of this for TRIM.

2 That -- using these numbers, you'll see that 3 at the end of this, we have a net operating profit, 4 for lack of better words, of \$1,293,362 as 5 presented today. That's money that typically the 6 Airport Authority uses in combination. Could be 7 anything from in a year we had no projects, which has never happened, you would -- you'd be able to 8 take that money and in theory put it into your 9 reserves. More often than that not, you're using 10 that money to match the capital grants we get from 11 12 Florida DOT, the FAA, and perhaps even EDA is in 13 the mix of the capital items for this year. 14 So depending on what grants and how they time

15 throughout a fiscal year, that's the money that 16 would be used to match capital grants or some 17 component of it.

MS. LUDLOW: I have a question before you getoff that one.

20 MR. WUELLNER: Uh-huh.

21 MS. LUDLOW: Because I got into outside 22 communication for \$230,000 and I couldn't figure 23 out what could cost \$230,000 for outside

24 communication.

25 MR. WUELLNER: You have money set aside for

participation in airline marketing. You have money 1 2 set aside -- that's where your airline consultants 3 salary or budget, if you will, comes out of --4 budget comes out of. It's also all of our 5 advertising expenses and the like for the 6 Airport Authority that occurs throughout the year. 7 In years we don't have air service, that number doesn't get spent anywhere near it. 8 9 MS. LUDLOW: Okay. So it's marketing for us and it's consulting for the airlines and it's 10 advertising for the airlines and the airport. 11 12 MR. WUELLNER: Airport in general as well, 13 yes. 14 MS. LUDLOW: And it's \$230,000. MR. WUELLNER: Yeah. But you also had in 15 16 this -- in last year's number, you also had the 17 agreed-upon cost to host part of that conference 18 that's going on in August. 19 MS. LUDLOW: I see. 20 MR. WUELLNER: So that number will probably 21 come down a little bit for next year. 22 MS. LUDLOW: Okay. And that led me to one 23 more. I'm sorry, you guys, but --

24 MR. WUELLNER: No.

25 MS. LUDLOW: -- anyway. Could we not get a

1 comparison of last year numbers? 2 MR. WUELLNER: You have them. 3 MS. GREEN: It's right here. 4 MR. WUELLNER: The column to your left is last 5 year. 6 MS. LUDLOW: 2021 and then 2020, okay. It's 7 not that one that I need the comparison, then. Okay. So that's a lot of money. 8 9 MR. WUELLNER: Well, that -- again, that 10 line -- that section of the budget is the one we'll be doing the most work on between now and July, 11 12 so... MS. LUDLOW: Oh. Okay. I'm on record. 13 14 MR. WUELLNER: Sure. CHAIRMAN MAGUIRE: Okay. Ed, keep going. 15 16 MR. WUELLNER: Yeah. Next just want to review 17 quickly the capital -- proposed capital budget at 18 this point. It looks like end of life on IT and security 19 20 is budgeted at about 50. We have some need for 21 some worn-out, not to buy but to replace some 2.2 worn-out electrical -- I'm sorry, mowing equipment. 23 Airport vehicles, there's some vehicle replacements 2.4 that are due here. We've got some 16-year-old 25 vehicles that are on the last -- last time. And

1

the need for replacement storage capability.

2 If you recall, the area behind hangar row I, 3 there's a white concrete block building that will 4 eventually -- it's the cost -- it's now time to 5 either replace the whole roof, realizing that in a 6 couple of years we're going to be bulldozing 7 through there to put a T-hangar in there at some 8 point. The thought now is go ahead and construct a prefab con -- storage building on a slab at a 9 10 different location, get it out of the way now, and then go ahead and --11 12 MS. LUDLOW: Yeah. 13 MR. WUELLNER: -- get rid of that building 14 now. 15 MS. LUDLOW: Because we've looked at that 16 building for years and it is nothing but an eye 17 sore.

18 MR. WUELLNER: It is.

MS. LUDLOW: Plus at one time we even thought, wow, I wonder if we could have our SAAPA meetings in there, but it's -- yeah, it just really is good for nothing, actually.

23 MR. WUELLNER: Yeah, it's had it. We -- we 24 got it as a part of the land purchase. It had --25 it was actually a residential garage back in the 1 day.

6

2 MS. LUDLOW: Ah. That was from Jimmy. 3 MR. WUELLNER: We've owned it 20, almost --4 actually, 25 years and it was probably 25 years old 5 when we got it, so...

MS. LUDLOW: I agree.

7 MR. WUELLNER: Then walking through the actual 8 capital projects for next year, as we've discussed 9 earlier, Taxiway Bravo, the design-only is the 10 \$300,000. You'll see that's funded at 100 percent 11 FAA money through our budget.

12 The next item is the terminal access road. 13 We've got approximately \$1.9 million worth of work 14 over there. That's split jointly between FDOT and 15 the Airport Authority.

16 The last area there is the GA rehab of aprons 17 and taxiways. Very kind of vague-ish description, 18 but what's intended there is to do the remaining 19 Estrella Avenue access point where the T-hangar 20 taxiways connect to the new Taxiway Delta.

21 So you'd be looking at taxiways between J, K, 22 L, M, and that little bit of apron access 23 associated with self-fuel there, is get that done 24 as a mill and overlay jointly funded by Florida DOT 25 and the Airport Authority.

MS. LUDLOW: Yeah, that's fine with them. I'm
 fine with someone else's money.

3 MR. WUELLNER: At least half of it. 4 The EDA grant, we've budgeted for it. We 5 don't -- we of course don't have any idea whether 6 it will actually materialize, but it's currently at an 80 percent rate. It's 240,000 EDA dollars with 7 a budget of about 60,000 of Airport Authority 8 dollars, should that grant come through, for a 9 total of \$300,000. 10

When you add all that up, you'll see that the 11 12 Airport Authority's share is about \$1,141-, excuse 13 me, -45,000 for capital construction. Add the 142 14 of capital equipment and you'll see that the Authority's number appears to be 2 point -- I'm 15 16 sorry. It's 1 point -- I'm on the wrong sheet for 17 that. That's why it's not adding. Give me a 18 second.

19The total is \$1,145,000 plus 240. So you're20looking at 100 and -- or, excuse me, \$1,345,000 as21the Airport Authority's contribution, which is --22comes out of that net profit that I just mentioned.23MS. LUDLOW: Are you talking about Taxiway B24or are you talking about the terminal?25MR. WUELLNER: Would be all of those projects.

1 MS. LUDLOW: Okay. Well then, we need to talk 2 about the terminal road. Terminal access road, are 3 you there?

4 MR. WUELLNER: We just mentioned it in the 5 course of budget for budgeting purpose.

6 MS. LUDLOW: Okay. Well, I want to know why 7 we would spend \$1,000,900 [sic] for a road that we 8 don't need. And it -- there's no revenue coming 9 in. And that's what we always harp on.

At least the hangars, we make \$50,000 a year on the hangars. And so we're talking about building a road over there that's a road to nowhere, the terminal or it's a -- am I too loud, Doug?

15 MR. WUELLNER: A little, but...

MS. LUDLOW: All right. So -- I know, because
I can't hear.

So I -- I think we are going to spend our money, \$1,000,900 [sic] for design of a road that we don't need?

21 MR. WUELLNER: This is construction dollars. 22 MS. LUDLOW: No revenue at all; we're just 23 spending money?

24 MR. WUELLNER: I don't -- it's certainly not 25 the case.

This includes the complete redo of the 1 2 entrance at U.S. 1, redoing all of the parking lots 3 associated with this, all of the access road back 4 there, signalization, and creation of the 5 intersection --6 MS. LUDLOW: The parking lots have --7 MR. WUELLNER: -- with Northrop Grumman --8 MS. LUDLOW: -- hardly been used. MR. OLSON: I just want to add. That was a --9 10 the terminal access road and those improvements are a key part of the -- I guess of the master plan, 11 12 and it's part of presenting our airport for 13 commercial service, scheduled service. And we --14 as we all know, we have a passenger terminal sitting vacant now. And so, it -- it's really part 15 16 of a vision for the future of the airport. 17 MS. LUDLOW: I don't think that kept anybody 18 from catching a flight. We have to go to Bruce's 19 analogy. Is it good for the airport? Is it going 20 to make money? 21 It's not -- it has not so far made one bit of 2.2 difference in airline traffic. Plus, Grumman's 23 going to use it and they're going to use it for --24 I mean, they're shift work, so they're going to 25 have like 200 cars at 7:00 in the morning and 4:00

1 in the afternoon. So it isn't just for

2 enhancement, Bob.

3 MR. OLSON: Right. I -- exactly. You made 4 another good point.

5 But the other thing about these projects is 6 we're talking about a road that won't be completed 7 for, what, two or three years?

8 MR. WUELLNER: About 15, 18 months.

9 MR. OLSON: Yeah. So it's -- you know, we --10 I don't know how to -- how else to do it, but 11 again, it's a key component of the master plan, 12 part of the strategy for the future of the airport 13 the way it presents itself, serves itself in the 14 ways you just described, Reba.

And the terminal -- right now, people that have never been to the passenger terminal, and there's not a reason to go to it right now, you turn in to the airport and you can't even find it, basically. You're weaving your way past a chain link fence and around an old hangar that's going to be --

22 MS. LUDLOW: But they put signs out when they 23 had an airline.

CHAIRMAN MAGUIRE: I think -- I think the real
issue here is, is the airport can't be stagnate.

It has to evolve and it has to grow and it has to
 develop as it goes along.

Not every penny spent will -- will result in a penny earned, okay? When you look at money spent, you have to look at the big picture. Does it improve the overall efficiency and operation of the airport which contributes to the overall revenue?

8 We may not be able to tag it to a specific 9 revenue stream, but in this case as I understand 10 it, this -- this road was designed as part of the 11 master plan and --

MS. LUDLOW: So what? I mean, there's a lot of stuff in the master plan. That's only a suggestion. That's what we've been told for years: We can't have it unless it's in the master plan, but we don't have to have it if it's in the master plan.

18 If we had an airline, you know, I could see 19 it. We are going to pay \$1.9 million for design 20 for a road that Northrop Grumman's going to use and 21 they're going to get to the airport anyway.

22 CHAIRMAN MAGUIRE: I don't -- I don't agree 23 with that one statement, if it's in your 24 master plan, we don't have to do it.

25 There are some elements in the master plan we

don't have to do, but when it comes to capital
projects, if you want to see what's going to happen
five, ten years down the road, that pretty well has
to be done because that's the vision of the
master plan.

6 MR. WUELLNER: I would like to just add also 7 that the decision point of this project was many 8 many months ago. It's not now in the budget. 9 You've already executed grants with Florida DOT for 10 all but \$1 million --

MS. LUDLOW: Okay. And I want to stay there 11 12 because I asked you, Ed, several times, I said, What is about this road? What's -- you said, Oh, 13 14 that's just so far in the future. Oh, we can't talk about that now because that's so far in the 15 16 future. A lot of studies are going to have to be 17 done. I had no idea you were already doing 18 studies.

MR. WUELLNER: I think we're talking about an entirely different road that's --

21 MS. LUDLOW: You're talking about --

22 MR. WUELLNER: -- far in the future.

23 MS. LUDLOW: -- the road -- you're going to 24 close up the main terminal road to

25 Atlantic Aviation.

MR. WUELLNER: That's the project we're
 talking about now --

3 MS. LUDLOW: And --4 MR. WUELLNER: -- yes, ma'am. 5 MS. LUDLOW: -- you're going to close that 6 and -- you're going to close that one up and then 7 you're going to the side one that still goes all the way back to the terminal -- it isn't pretty --8 9 you're right, it isn't pretty -- but why are we spending almost \$2 million for design of a road 10 that's going to not give us any money at all? We 11 need hangars \$50,000 a year revenue. Roads, no 12 revenue. Black and white. 13 MR. WUELLNER: Well, you could make that 14 15 argument for taxiways and runways also. 16 MS. LUDLOW: Pardon me? MR. WUELLNER: You could make the same 17 18 argument that infrastructure investment does not 19 return on investment. Runways, taxiways --20 MS. LUDLOW: An airport with runways is one 21 thing. A road is something else. 2.2 MR. WUELLNER: You can't get there without --23 MS. LUDLOW: They can't hear -- Ed, they can't 2.4 hear what you're saying, so they think I'm just 25 talking to myself.

1 CHAIRMAN MAGUIRE: I think at this point, 2 though, the road is already planned and budgeted 3 and approved. 4 MS. LUDLOW: No, it isn't. No, it isn't. 5 MR. WUELLNER: You have executed grants for 6 all but 500,000 of state money for this in the 7 entire job. MS. LUDLOW: You have asked for grants for 8 9 \$500,000. So that means we only have to pay for 10 1 million 3? MR. WUELLNER: Correct. 11 12 MS. LUDLOW: Why are we paying 1 million 3 for 13 a design? 14 CHAIRMAN MAGUIRE: It's not design. MR. WUELLNER: It's construction. 15 16 MR. MIRGEAUX: It's not the design. This is 17 construction. 18 MS. LUDLOW: Up -- I'm sorry. It says a needed road, design only, out of pocket \$1 million. 19 20 What's the total estimate going to be? What's the 21 total -- same thing with the other thing, what's 2.2 the end result? What's the end cost? 2.3 MR. WUELLNER: Oh, okay. I see where you're

24 getting confused --

25 MR. BURNETT: It's --

1 MR. WUELLNER: -- and it's our fault. 2 We didn't correct the line item. It's --3 while it says design only, it was a holdover from 4 last year, the line. It's not design; it's 5 construction. My apologies. I see where you're --6 MR. OLSON: Yeah. 7 MS. LUDLOW: We're can spend \$1.9 million for 8 something that gives us no money at all. I'm not 9 going to vote for it. I think it should be tabled 10 until we know more about it. MR. WUELLNER: I don't know what else we could 11 12 provide, honestly. MS. LUDLOW: Pardon me? 13 MR. WUELLNER: I don't -- I don't know what 14 else -- I don't know what you're missing. 15 16 MS. LUDLOW: Well, you didn't tell us you had 17 applied for grants. 18 MR. WUELLNER: Ma'am, you've approved the 19 grants. 20 MS. LUDLOW: We didn't know you even applied 21 for it. 2.2 MR. WUELLNER: You not only knew it, you 2.3 approved the grants. You signed the resolutions. 24 MS. LUDLOW: Well, you know what? We didn't 25 know what we were approving. I can tell you that.

1 That's the problem.

2	CHAIRMAN MAGUIRE: At this at this point,
3	we're not approving anything today. This is a
4	preview of the budget coming up next month,
5	correct?
6	MR. WUELLNER: Correct.
7	CHAIRMAN MAGUIRE: So we're not approving and
8	we're not asking for approval today.
9	MS. LUDLOW: Okay.
10	MS. GREEN: I do think it's important, like
11	Bob mentioned, that I mean, I don't want to be
12	the old adage "You build it they will come," but
13	this is something that will drive airline service.
14	And if it's a good vision for the airport, I'm in
15	favor of it.
16	MS. LUDLOW: But they came anyway. How many
17	airlines have we had that came down that same
18	little road
19	MS. GREEN: Two, and they left.
20	MS. LUDLOW: Yeah. You know why? They ran
21	out of free money.
22	CHAIRMAN MAGUIRE: We're going to have to move
23	forward on this
24	MS. GREEN: Uh-huh.
25	CHAIRMAN MAGUIRE: okay? Ed, continue.

1 MR. WUELLNER: Well, with that, plugging it 2 back in, there's about 6 -- currently showing about 3 \$6,300, \$6,400 that would go back to -- go into 4 reserves at this point as a result of the budget.

5 The capital budget itself is relatively set, 6 meaning those -- the capital projects are a result 7 of grants and grant programming that's been in place for -- for a long time. So it's -- I'm very 8 comfortable those are the likely numbers in that 9 location. So the -- again, the only part that I'm 10 not a hundred percent comfortable on but we will be 11 12 is the -- is the operating expense side of the 13 budget.

14 So, currently when you put the revenues and 15 expenses together, include the capital projects as 16 presented, you're looking at total budget 17 anticipated somewhere around 8.77 million as we get 18 into July for TRIM notification as well as 19 September for formal budget hearings that will be 20 scheduled at that time.

Just a reminder that your budget does not include any ad valorem taxes in its -- in its composition or expenditure. So, again, that's -you'd be entering your, I believe it's your eleventh year at this point without the need for

if you will, for --2 3 MS. LUDLOW: We're going to need an ad valorem 4 soon if we spend \$1.9 million. 5 MR. WUELLNER: Well, you can see with these 6 projects, you're still putting in this case \$6,000 -- I know it's meager, but \$6,000 into 7 8 reserves, so you are certainly operating within 9 your budget. 10 CHAIRMAN MAGUIRE: Okay. Any more comments on the budget preview? 11 12 MR. WUELLNER: I have nothing else. 13 CHAIRMAN MAGUIRE: Does that wrap it up for 14 you? MR. WUELLNER: Yes, ma'am -- yes, sir. 15 16 PUBLIC COMMENT - GENERAL 17 CHAIRMAN MAGUIRE: Okay. Let's go to public 18 comment, and Jennifer Liotta -- Liotta 19 (pronunciation). 20 MS. LIOTTA: Hi. I'm Jennifer Liotta. I am 21 with Modern Aero. We're a company that just 2.2 purchased Jacksonville Aviation in March.

ad valorem. So you're entirely funded by yourself,

1

23 Jacksonville is a tenant on the field.

24 Just wanted to take this opportunity to
25 introduce ourselves. We're working with Ed and the

Authority on adjusting the lease. We're looking forward to putting in a flight school that's going to focus on the Cirrus aircraft, as well as some other activities we're talking about with -- with Ed and staff.

6 I am -- so this is my first opportunity to 7 meet a lot of you folks and I'm very pleased to do 8 so. I've had an opportunity to speak to a few of 9 you individually. I look forward to being able to 10 reach out to the rest of you in the near future, 11 and that is all I had to say.

MS. LUDLOW: Thank you, Jennifer.
CHAIRMAN MAGUIRE: Any questions for her,

14 comments?

15

16 CHAIRMAN MAGUIRE: Thank you, very much.

(None.)

17 All right. Let's move on to the member

18 comments.

MR. WUELLNER: You have a public comment.
CHAIRMAN MAGUIRE: Did you want to come back
again?

22 MR. TUCKER: No, I have for budget on there.23 CHAIRMAN MAGUIRE: I'm sorry?

24 MR. TUCKER: I have for budget on there to say 25 something. 1 CHAIRMAN MAGUIRE: Okay.

2 MR. TUCKER: Len Tucker.

3 No, I had passed on Taxiway B comments -4 CHAIRMAN MAGUIRE: Okay.

5 MR. TUCKER: -- when you asked me about that, 6 but to the budget I still have comments. And I 7 would like to reiterate there are several things 8 that I think we need to straighten out.

First, the master plan. This is the third 9 10 master plan that I've seen over the 30 years or 25 years that I've been here. Every time it has come 11 12 up, it has been delineated specifically these are 13 not things that have to be done. These are 14 different scenarios that play out at the airport, 15 and if you go down this road, here's a projection 16 or a method of getting there. It is not something 17 that is in stone or anything else. So the fact 18 that road was in the master plan is just there for 19 planning purposes. If you need it, if it's done, 20 that's what you've got to do.

21 Secondly, it is \$950,000. And it is not going 22 to bring an airline here. It is not going to bring 23 a single passenger here. They're not going to say, 24 I can't use St. Augustine Airport because they've 25 got a bad access road. You know, there were plenty of passengers and they were filling the airlines here when they had the cheap rates going, so I don't see where that makes a single bit of difference.

5 Now, you may say, well, it will look nice. 6 Well, that's fine, too, but, you know, a million 7 dollars? We're supposed to be self-sustainable. 8 We're not going back on the tax roll. If we start 9 spending money that doesn't generate any money, 10 it's not going to do the Airport Authority any good 11 at all.

Look at putting the money to use at something that will generate revenue, not something that is strictly an expense to make it look a little better.

And one other thing that you've got is most of the usage of it isn't going to be for us, anyway. It's going to be for Grumman. And Grumman's not even asking for it, as far as I know. So, you know, what is -- what's the point?

21 We're just going to spend money that we 22 shouldn't be spending on something that makes us 23 feel good because it's a nicer road. I'm sorry, 24 but I'm too much of a businessman to think that I 25 can put out \$950,000 on something that won't return

1 a dime.

2 CHAIRMAN MAGUIRE: Okay. Okay. Any other
3 public comment?

4 (None.) 5 CHAIRMAN MAGUIRE: Okay. Bring it back to the 6 board. Reba, the Aerospace Academy and TPO. AUTHORITY MEMBER COMMENTS AND REPORTS 7 8 MS. LUDLOW: Aerospace Academy is winding down and, you know, we're still trying to get in touch 9 with our interns. Such a wonderful thing. Those 10 interns are so wonderful. 11

12 I have been so impressed with TPO. And I know 13 we're just too busy today to go into it, but their 14 projects and their -- but I know we can't afford 15 something this nice, but -- and we don't need it, 16 we only need, you know, a stapled piece of paper. 17 But they have every project listed here and the --18 the -- the stature of it, where is it, what's going on, and when they think the completion's going to 19 20 be. I mean, this is all St. Johns County.

21 And I'm going to pass -- next time I'll just 22 pass it around just so you have an idea what the 23 TPO -- frankly I didn't even know what TPO meant. 24 It was the Transportation Planning Organization. 25 And it's for several counties, not just St. Johns.

It's for Nassau and Duval, and it gives -- it gives
 you a great overview.

3 But St. Johns County is in here. So our 4 sidewalks are in here. The roads that are 5 projected from the transportation are in here. 6 It's -- it was quite impressive, I'll say. I'll just pass it out next time. 7 8 CHAIRMAN MAGUIRE: Okay. Good. Okay. Mr. Olson, EDC. 9 10 MR. OLSON: Yes. EDC, there was not a quarterly EDC meeting this -- since the last 11 12 meeting. I believe there is one scheduled now 13 on --14 MS. GREEN: Friday. 15 MR. OLSON: -- this week, Friday. 16 MS. GREEN: Uh-huh. 17 MR. OLSON: But I did -- given the economic 18 development slot, I did attend a luncheon of the 19 National Space Club Florida committee. They have 20 reconvened and are now meeting in person. 21 This is sort of a networking luncheon with a 22 speaker that they meet down at a hotel in 23 Cape Canaveral. It draws a big crowd. And the 2.4 speaker on June 8th was Frank DiBello, president

and CEO of Space Florida.

25

Just a quick synopsis of his points. 1 2 Space Florida is heavily involved in of course 3 promoting that area in specific. He was talking 4 about the challenges going forward. 5 Infrastructure, lack of good and complete 6 infrastructure, water and sewer and roads is a big thing impeding development in that area, and land. 7 We think when we go through that region that 8 there's a lot of land that doesn't looked 9 developed, but a lot of it is undevelopable and 10 wildlife preserve. 11

12 They are developing -- Space Florida is a lead 13 party in the development of Exploration Park, which 14 is a 222-acre piece of land that was carved out of 15 Kennedy Space Center. And they have -- as he said, 16 they've made a \$50 million investment in that.

17 And it's interesting, their scope as to what 18 they're looking at, Space Florida, is the -- the 19 Exploration Park. Aerospace contractors in 20 addition to commercial space service providers, 21 biotechnology and like science, environmental 2.2 sciences, and clean energy research. So it's --23 it's an interesting thing to watch and keep track 24 of.

25

The attendees -- and, I mean, I think that's a

value in our airport, being aware and work -- and networking with this group, is that it's made up of people that have talent that is moved -- that have of course moved out of NASA when we were -everything was federally funded down there into the private sector.

7 And so, the room was sort of full of all of this talent that's come out of NASA. And the big 8 contractors, the big ones, and they're all 9 networking now because they're -- they've become 10 entrepreneurs and they're involved in their own 11 12 enterprises or smaller ones that are contracting with each other and with the big stuff. Very 13 14 specialized.

But it was an interesting thing to go to and to meet some people. And I'm not sure in the long term what value, but I think if we're going to have an aerospace initiative here, we need to understand how we can benefit from what's happening down there.

21 CHAIRMAN MAGUIRE: Great. Thank you, very22 much.

23 Okay. Justin, comments?

24 MR. MIRGEAUX: Nothing for me, thank you.

25 CHAIRMAN MAGUIRE: Ms. Green?

1 MS. GREEN: The only thing I would add to 2 Mr. Olson's, the EDC is Friday. It's a breakfast 3 and it is in person. 4 MR. OLSON: Yeah. MS. GREEN: But it's down at 5 6 St. Augustine Beach. It's going to be the 7 legislative update. CHAIRMAN MAGUIRE: Yeah, that's going to be 8 9 something. 10 MS. GREEN: Uh-huh. 11 CHAIRMAN MAGUIRE: Are you going to try to 12 attend? 13 MS. GREEN: I have a hearing. 14 CHAIRMAN MAGUIRE: Are you going to try to attend? 15 16 MR. OLSON: I wasn't, but if we're not going 17 to be represented otherwise, I will. 18 CHAIRMAN MAGUIRE: I'm going to try to attend. 19 MS. GREEN: Okay. Good. 20 CHAIRMAN MAGUIRE: Okay. 21 MR. OLSON: Okay. You're going to attend? 22 Okay. Good. 2.3 MR. MIRGEAUX: I plan on it. 2.4 MR. OLSON: Good. We're covered, then. 25 CHAIRMAN MAGUIRE: All right. Yeah, it's

1 going to be at the Embassy.

2 MS. GREEN: Yeah.

3 CHAIRMAN MAGUIRE: All right. And I do not 4 have anything, either, except our next meeting will 5 be July 12th. It's not the third Monday, it's the 6 second Monday, okay? Is that correct? I think that's correct. Second Monday? 7 All right. Comments, questions? Anything 8 9 else, Ed? 10 MR. WUELLNER: No, sir. MS. LUDLOW: It was a very nice meeting, 11 12 Mr. Chairman, and thank you for being patient with 13 me. CHAIRMAN MAGUIRE: Well, like I said, 14 education is a big issue here, and if you're not 15 16 familiar, ask questions. We may not be able to 17 understand some time what you're trying to get at, 18 but we need to make sure we talk, okay? 19 MS. LUDLOW: Right. And thank you. 20 CHAIRMAN MAGUIRE: Okay. Meeting's over. 21 (Meeting concluded at 5:34 p.m.) 22 23 24 25
