	Page	2	Page 4
1	INDEX	1	MR. YOUMAN: Which one?
2	PAGE	2	MR. WUELLNER: It's a technology challenge
' 3	PLEDGE OF ALLEGIANCE 3	3	MR. COX: I'm missing that on the agenda items
4	MEETING MINUTES & FINANCIAL REPORT 8	4	here.
5	AGENDA APPROVAL 10 EXECUTIVE DIRECTOR'S REPORT 3		
7	EXECUTIVE DIRECTOR'S REPORT 3 BUSINESS PARTNERS UPDATE 11	5	MR. WUELLNER: All right. So moving into
8	BUSINESS ITEMS	6	that, we have a couple of them. Let me update you
9	A. Resolution 2015-06 FDOT JPA 16	7	on the ongoing projects.
	B. Resolution 2015-07 FDOT JPA 19	8	The runway lighting project not lighting,
10	C. Final Design Contract - Terminal 28	9	marking project is already completed and is in the
11	D. Roof Replacement Alteratives 4762 US 1 N 32	10	process of closing out. Taxiway Alpha, which was
111	PUBLIC COMMENT - GENERAL none	11	the rehab project, the construction side is
12	/	12	completed. We are finishing the closeout
	AUTHORITY MEMBER COMMENTS AND REPORTS 39	13	documentation to allow that grant to be closed. So
13		14	the work is done there.
1.4	ADJOURNMENT 46	15	I am pleased to announce that we received the
14	REPORTER'S CERTIFICATE 47	16	other day the approach light the grant for
15	REPORTERS CERTIFICATE 47	17	approach lighting from the FAA to the tune of about
16		18	\$1.1 million in total.
17		19	(Ms. Green enters the room.)
18		20	MR. WUELLNER: That will allow that to get
19 20		21	started some time in the next month or so as the
21		22	The state of the s
22			contracts catch up to the grant.
23		23	MR. COX: Cool.
24		24	MR. WUELLNER: Next we're going to move ahead
25		25	with an item that's in sort of last year's budget

We've had everything from some switches and security system and all kinds of pieces and parts that that that strike went through, and it would appear that we took a direct strike to the tower itself and that resulted in a number of a number of things that are out or were out. Many things have come back. I'd say we're what would you guess, Cindy, left to? Probably sitting at about 80 percent, if I were guessing, at this point back online with everything. A few more things are are in process and should wrap up in the next couple of days. But suffice it to say we with the number of hits we've had this year, which is surprising
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	PROCEEDINGS (Ms. Green & Mr. Brunson not present.) MR. COX: Good afternoon. We're calling to order the Airport Authority meeting. Please stand for the Pledge of Allegiance. (Pledge of Allegiance). MR. COX: Thank you. I'm going to wait for meeting minutes and financial report and agenda approval. Let's move into the Executive Director's Report right away. EXECUTIVE DIRECTOR'S REPORT MR. WUELLNER: Okay. Okay. Is this on now? No? Yes? Okay. Is that a head nod or a yes? Either way I'm being ignored. MR. COX: She's trying to get you. MR. HARVEY: That's the first time we've heard you. MR. WUELLNER: Okay. MR. WUELLNER: Okay. MR. COX: You can use mine. MR. WUELLNER: Are you picking up on this? MS. HOLLINGSWORTH: I can hear you loud and clear. MR. COX: Part of the Executive Director's	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	and will straddle forward. We have some DOT Florida DOT participation in it related to lightning protection. We're meeting with some folks tomorrow to get that project started. If you haven't been made aware of it, we we've taken a number of very strong hits over the last two or three weeks and have have really been chasing those ghosts all over the airport trying to get everything back up and running. We've had everything from some switches and security system and all kinds of pieces and parts that that that strike went through, and it would appear that we took a direct strike to the tower itself and that resulted in a number of a number of things that are out or were out. Many things have come back. I'd say we're what would you guess, Cindy, left to? Probably sitting at about 80 percent, if I were guessing, at this point back online with everything. A few more things are are in process and should wrap up in the next couple of days. But suffice it to say we with the number of

Page 8 U.S. 1. So those -- those two items we'll be there

the last three or four years, but this year just seems to be one of those years.

Then airport metrics update for August. Looks like we did about 15,700 gallons of self-serve. Looks like Atlantic did about just under 8,000 in self -- in hundred low lead and another almost 92,000 in jet fuel. Enplanements for the month of August totaled 1,723 on Frontier. At this point all hangars are occupied and -- and we are full in that regard.

And for August, we -- we logged about a little over 11,000 takeoffs and landings for the month. That leaves us -- puts us at about 90-, just under 91,000 takeoffs and landings for this point in the calendar year on pace as -- as we predicted to have the year-end numbers right in the vicinity of 140,000 operations. So that will be very consistent with what we did last year. I think we're approximately 1 percent variance at this point. So good -- good solid operations numbers, too, for the year at this point. So we'll see how -- how weather cooperates.

We did have several days where we were unable to do touch-and-goes due to equipment damage in the tower that belong to FAA and the like, so I believe

for the Authority at that time.

CHAIRMAN GREEN: What time is that meeting?

MR. WUELLNER: 1:00.

CHAIRMAN GREEN: 1:00?

MR. WUELLNER: Begins at 1:00. And that concludes my report.

MR. COX: So we launched right into the meeting with just the two of us here until we had a quorum. We haven't acted on any action items, but we haven't done the -- pointing out to you, the agenda approval yet or --

CHAIRMAN GREEN: Okay. So you did the minutes? Did you do that?

MR. COX: -- the meeting minutes and the financial minutes approval.

CHAIRMAN GREEN: So we need to start with the financial report?

MR. COX: Yes, ma'am.

CHAIRMAN GREEN: Okay. Thank you. I apologize. I was stuck in the Duval County Taj Mahal.

APPROVAL OF MEETING MINUTES & FINANCIAL REPORT CHAIRMAN GREEN: Okay, All right.

So, we received, Mr. Youman, Mr. Cox, the

Page 7

Page 6

that's been rectified to the point that those have resumed.

Updates. If you aren't aware, we're going to facilitate Spanish royalty visit here on Friday. They'll be -- they'll be coming in an Airbus A310, which is a rough equivalent of a Boeing 767 size airplane. They'll be arriving in the morning, and near as we can tell they'll be departing a couple of hours later with the aircraft itself. We're still trying to figure out what's -- what's going on, but it appears they're then flying the airplane to Jacksonville and picking them up and leaving from there and going back to Spain. So we're -- we're not sure what that's all about, but in any case, that's the tentative schedule.

I do want to make you aware of a legislative delegation meeting. It has been calendared finally and that is set for October 13th beginning about 1:00 in the St. Johns County Board of County Commissioners meeting room. And we will have the charter items on that agenda as -- as directed.

We will also have our request for participation, funding participation related to the land acquisition of the Florida -- Florida -- or Flagler Development property on the west side of

minutes of our last meeting, and we can do this together, and the financial reports. Does anyone have any objections or additions or anything with regards to the minutes?

MR. YOUMAN: Minutes, no.

MR. COX: Negative.

CHAIRMAN GREEN: No? Carl, no?

MR. YOUMAN: No problem with the minutes.

CHAIRMAN GREEN: Okay. The minutes will stand as written and approved. The financial report, any comments?

MR. COX: None.

CHAIRMAN GREEN: Bob?

MR. YOUMAN: It's -- I'd just like to ask a question. In the Current Assets Checking/Savings, it has Item 104112, SBA 2-Ad Valorem Tax Receipts \$20,499.34. Where'd that come from?

MR. WUELLNER: Those are collections made in arrears. People who have not paid taxes and then they're redeeming those certificates and we get -- we get some money for that.

MR. YOUMAN: It's that far behind?

MR. WUELLNER: Sometimes.

MR. YOUMAN: Wow. That's just like magic money, huh?

Page 9

Page 10 Page 12 1 MR. WUELLNER: Oh, yeah. But you can't So we're doing the whole bulk hangar, painting 1 2 predict it. 2 it, reroofing it -- or working on the roof, and 3 MR. YOUMAN: No, I understand that fact, 3 doing a little bit of door work and everything, 4 but -make it prettier to everybody and also better for 4 5 MR. WUELLNER: It's not magic to us. We'll 5 the Customs guys that are in there for the year. 6 take it. 6 So if you haven't been back that way, drive back 7 MR. YOUMAN: It's real. Thank you. 7 and check it out. It looks a lot different. And 8 MR. WUELLNER: Uh-huh. 8 that's really it. 9 CHAIRMAN GREEN: Any more comments on the 9 We're hoping to get some activity on Friday 10 financial report? 10 for the Spain U.S. council meeting. We don't 11 (None.) 11 really have much on the books. You know, all we 12 CHAIRMAN GREEN: Okay. Financial report then 12 have really seen is the airbus coming. But 13 will be approved as proposed. 13 hopefully we'll get some activity from that. 14 MR. YOUMAN: I make a motion we accept the 14 And I probably -- you probably won't see me 15 financial report as presented. 15 for a while, so Tony and then Josh and Todd will be CHAIRMAN GREEN: That's fine. We really don't 16 16 our local contacts if you guys need anything. 17 need a motion. As long as no one has any 17 CHAIRMAN GREEN: Okay. 18 objections, we'll just accept it as proposed. 18 MR. COX: Thanks, Michelle. 19 AGENDA APPROVAL 19 CHAIRMAN GREEN: Thank you, Michelle. Good 20 CHAIRMAN GREEN: Okay. The agenda approval. 20 luck with everything. SAAPA? I don't see Reba. 21 Everyone's seen the agenda that was sent out? Any 21 Grumman, Northrop? 22 exceptions, additions, deletions to the agenda? 22 MR. NEHRING: Nothing. 23 MR. YOUMAN: No problems with the agenda. 23 CHAIRMAN GREEN: Nothing to report, 24 CHAIRMAN GREEN: Okay. The agenda will stand 24 Mr. Nehring? And Doug. 25 as approved. 25 MR. BURNETT: I guess quickly, to follow up on Page 11 Page 13 1 Mr. Wuellner, that was your report you gave 1 what Ed was saying with the charter, it seems like 2 us? 2 it's our year to get our local bill through. I 3 MR. WUELLNER: Yes, ma'am. 3 really get that sense from dealing with 4 **BUSINESS PARTNERS UPDATE** 4 Representative Cyndi Stevenson and Senator Travis 5 CHAIRMAN GREEN: And so I didn't see 5 Hutson. It's been a few years coming. Last year 6 Ms. Bennett. 6 we had the snafu with the changeover, so -- but 7 MR. COX: Business partners update. 7 it's been very well-received, which is a good 8 CHAIRMAN GREEN: Right. I didn't see 8 thing. 9 Ms. Bennett, so I see no other commissioners. 9 One thing, just sort of a footnote, we had --10 MR. YOUMAN: Excuse me? 10 the Board of County Commissioners had a workshop 11 CHAIRMAN GREEN: Yes. 11 meeting here. They met in the room next door a few 12 MR. YOUMAN: May I make a comment on that? 12 weeks ago and it really went well. It -- it was a CHAIRMAN GREEN: Yes, sir. 13 13 nice meeting. And it was different to see that 14 MR. YOUMAN: Has Mrs. Bennett been to any 14 format where they're sitting down, sort of your 15 meetings? 15 format sitting at a table with the -- the citizens, 16 CHAIRMAN GREEN: Well, I have -- I'm fairly 16 rather than behind the -- the --17 new. The first couple she was at, yes. I -- she 17 MR. YOUMAN: Fortress. 18 was not at the last one, but she has been, yes. 18 MR. BURNETT: Yes. So it was a really really 19 MR. YOUMAN: Okay. 19 nice meeting. It was neat to see the dialogue of 20 CHAIRMAN GREEN: Atlantic, Michelle? 20 people talking and this facility being a showcase 21 MS. CROWNOVER: Hi. I don't know if you guys 21 for the citizens of the county that aren't normally 22 have actually been back towards the terminal 22 here. 23 lately, but we are almost done with our project of 23 And other than that, I don't really have painting it and trying to make it more appealing to 24 24 anything to report. Worked on a couple of things 25 those going back towards the terminal. 25 behind the scenes this month, but otherwise nothing

		1	
	Page 14		Page 16
1	new to report.	1	MR. WUELLNER: Okay.
2	CHAIRMAN GREEN: Okay. Nothing with regards	2	CHAIRMAN GREEN: Business items, Mr. Wuellner.
3	to some tenant issues? Our tenant issues are all	3	RESOLUTION 2015-06 FDOT JPA
4 5	okay for now?	4	MR. WUELLNER: The first item I've got for you
6	MR. BURNETT: Yeah, it's about been quiet on	5	is an FDOT JPA grant. It's a it requires
7	that front.	6	passing Resolution 2015-06, and this is covering
8	CHAIRMAN GREEN: Okay. Thanks.	7	the design and rehabilitation of Runway 13/31 and
9	MR. YOUMAN: May I back up and ask Ed a question?	8	aircraft parking apron pavement markings.
10	CHAIRMAN GREEN: Sure. On Mr. Wuellner's	9	As it as it turns out, Florida DOT, it's
11	report?	10	more for your edification, was unable to get the
12	•	11	grant processed in time. We were able to get the
13	MR. YOUMAN: No. On his re on his report, yeah.	12	FAA people the work done before we could get the
14	•	13	JPA passed, so as a result none of the Runway 13/31
15	CHAIRMAN GREEN: Right. On his report? Yeah. MR. YOUMAN: The 450th, did the airport	14	project is eligible for reimbursement by Florida
16	participate in any way parking or anything, or did	15	DOT. The good news is we were able to convert all
17	they just	16 17	of that money into the parking apron make
18	MR. WUELLNER: No. They did not	18	markings. So we didn't lose a beat, didn't lose
19	MR. YOUMAN: not use our facility?	19	any money, and they'll participate in the parking
20	MR. WUELLNER: We worked for them planning it,	20	apron markings at this point, so
21	but they didn't need it.	21	MR. COX: So this resolution, the way it's
22	MR. YOUMAN: Good. But we were part of the	22	worded, it has only to do with the pavement marking
23	planning?	23	MR. WUELLNER: Correct.
24	MR. WUELLNER: Uh-huh.	24	MR. COX: period.
25	MR. YOUMAN: How many strikes of lightning	25	MR. WUELLNER: Correct.
1	Page 15		Page 17
2	have we had? About I mean, just a rough estimate.	1	MR. COX: So no asphalt or
3	MR. WUELLNER: We we've had at least three	2	MR. WUELLNER: There's no asphalt, no nothing.
4	storm events that have caused some version of	3	It's strictly marking.
5	outage, the last one probably creating the most	5	MR. COX: Design and rehabilitate sounds like the whole
6	damage.		
7	MR. YOUMAN: Wow.	6	MR. WUELLNER: Yeah, it's designed
8	MR. WUELLNER: That was a week, ten days a	8	MR. COX: But not for that price. It'd be
9	week, ten days ago, something like that?	9	nice for that price, wouldn't it? MR. WUELLNER: Yes. It
10	MR. HARVEY: Yeah. It was	10	MR. COX: Okay. I just wanted I just
11	MR. YOUMAN: Yeah, that was in the paper	11	wanted yeah.
12	MR. HARVEY: Tomorrow will be a week.	12	MR. WUELLNER: And then as you as you
13	MR. YOUMAN: that last	13	suspect, there if you're good with the math,
14	MR. WUELLNER: It will be a week tomorrow?	14	it's 50/50 with Florida DOT. The total project at
15	MR. HARVEY: Yes.	15	this point would be about \$20,920 of which half
16	MR. YOUMAN: Yeah, that last one was in the	16	would be paid for by Florida DOT if you accept the
17	paper.	17	resolution.
18	MR. WUELLNER: Yeah, we I think we're, what	18	CHAIRMAN GREEN: Wasn't this required of us at
19	would you guess, 80 percent back at this point,	19	some point in time?
20	something like that?	20	MR. WUELLNER: The the markings?
21	MR. HARVEY: Yeah.	21	CHAIRMAN GREEN: Uh-huh.
22	MR. YOUMAN: Okay. Thank you, very much.	22	MR. WUELLNER: Yeah, the markings came up
23	MR. WUELLNER: Uh-huh. Sure.	23	originally as a Part 139 inspection issue where
24	CHAIRMAN GREEN: Okay. That brings us to	24	they were and we had a some near as we can
25	business items.	25	tell, it was something in the pavement, the asphalt

Page 21

Page 18 pavement itself, causing a rust bleed-through in

the markings.

And our -- our sister airport so to speak down in Daytona had the exact same problem. They had done a runway rehab at a similar time. They bore the lion's share of the research in this and were able to come to a solution that was satisfactory both to FAA and Florida DOT. And as a result, FAA participated in a quick fashion to go ahead and allow with an additive now, rust inhibitive sort of additive to the paint and allow a remarking of the runway.

So we -- we got a stand-alone -- you probably recall from previous meetings, I believe it was about a \$150,000 state -- excuse me, federal grant for this which represented 90 percent of the funding for the remarking of the runway. We ended up paying the 10 percent, and then we -- we also have the DOT share that we're going to be able to use for apron markings.

We were able to amend the grant at the point of issue here just a few weeks ago to get that apron parking added to the grant description so that it becomes eligible so we don't lose the \$10,000 of state money in this.

passing of Resolution 2015-07. This project con -consists of the design and construction of the airport terminal modification. So as you can tell by the dollar figures, this is the 50 percent share of the rehabilitation effort on the terminal.

Okay. This is the airline terminal. Total project estimate based on Florida DOT participation -- this is not based on the actual construction estimate yet, that will be next month. But the current total budget available would be \$2,258,632 with FDOT share in a not-to-exceed portion here of \$1,129,316. If you're good with the math, you realize that's 50 percent. And we would recommend adoption of 2015-07.

CHAIRMAN GREEN: Okay. Board discussion? MR. COX: So, what are we getting from the FAA, anything?

MR. WUELLNER: FAA does not participate in the terminal project.

MR. COX: Oh.

CHAIRMAN GREEN: And there's nothing as we discussed earlier from the prior contractors.

MR. WUELLNER: Correct. Correct. And this is the replacement of -- of the terminal structure itself and the slight enlargement of the waiting

Page 19 1 CHAIRMAN GREEN: Okay. Public comment? 2 (None.) 3 CHAIRMAN GREEN: No public comment? Okay. 4 Motion from the board? 5 MR. YOUMAN: I make a motion that we accept 6 Resolution 2015-06, design and rehabilitate 7 Runway 13/31, et cetera. 8 CHAIRMAN GREEN: Is there a second? 9 MR. COX: I second that. 10 CHAIRMAN GREEN: Okay. And so the resolution 10 11 as presented by staff? 11 12 MR. YOUMAN: As presented by staff, yes. 12 13 CHAIRMAN GREEN: There's a motion --13 14 MR. YOUMAN: That's a nice way to shorten it. 14 15 CHAIRMAN GREEN: There's a motion and a 15 16 second. All in favor? 16 17 MR. COX: Aye. 17 18 MR. YOUMAN: Aye. 18 19 CHAIRMAN GREEN: Aye. Any opposed? 19 20 (None.) 20 21 CHAIRMAN GREEN: The motion's passed. Okay. 21 22 RESOLUTION 2015-07 FDOT JPA 22 23 MR. WUELLNER: Okay. Similar -- similar 23 24 process here. 24

We have a Florida DOT grant which requires

area and the lobby area as an end result.

CHAIRMAN GREEN: And still keeping the inside as much as we can and building the structure over?

MR. WUELLNER: Yes. And you'll have a -- you have an additional item, I think it's the next item --

CHAIRMAN GREEN: It is.

MR. WUELLNER: -- that will -- would -- if adopted or if passed would facilitate final design of that, and then solicitation of the -- the design-build bids as a part of that contract. And then next month's Authority meeting would have you consider the construction portion of that same contract. So we'll know that as a not-to-exceed number at point of the project. We're still targeting a window for that project in -- from basically January till April.

CHAIRMAN GREEN: So this resolution is just primarily to look at numbers and say this is what we participate, this is what FDOT we believe is going to go, and then we still have next month to look at, okay, what is it really going to --

MR. WUELLNER: This is strictly the money piece of it --

CHAIRMAN GREEN: Right.

MR. WUELLNER: -- the available money from Florida DOT for this job. Next month we'll look at what the project budget will be. And obviously our internal goal is that will need to be less than the 2.258 million dollars. But we don't have that number yet. We're about a month early.

CHAIRMAN GREEN: Any other board discussion? (None.)

CHAIRMAN GREEN: Public? Mr. Martinelli? MR. MARTINELLI: Yeah. Mainly just some questions. This -- this new facility will be built alongside the present one or around it or over it?

MR. WUELLNER: Yeah, essentially around it. We will -- at a certain point here, this will be -- looks like it will be tilt wall construction, and we will quite literally build -- put the walls up and pull the old structure down and then put the roof on it.

MR. MARTINELLI: Okay. So the footprint's basically going to be the same.

MR. WUELLNER: It is slightly larger just based on the method of construction. It goes from about an 11,000 foot structure to about 13,000 total.

MR. MARTINELLI: Okay. And gates, will there

We'll be trying -- we haven't got a firm schedule from Via for that period of time, but we're prepared to accommodate them during that same -- same period during construction.

MR. YOUMAN: Thank you. CHAIRMAN GREEN: Mr. Cox?

MR. COX: What's the material that we're constructing out of this time?

MR. WUELLNER: This will be tilt wall construction. So essentially it's solid concrete. It's built same general techniques as we built the air traffic control tower.

MR. COX: Okay. All right.

MR. WUELLNER: Approximately 10- to 12-inch thick concrete lifted up into place on the end and welded together basically, is the -- it's a very substantial method. So eliminate all the long-term issues that we're experiencing with the type of structure we have.

MR. YOUMAN: Are there qualified construction firms in the St. Augustine or St. Johns County area qualified to bid on this project?

MR. WUELLNER: There is in the Jacksonville area for this kind of project. It's a common method of construction out there, especially for

Page 23

Page 22

be increased gates, or no?

MR. WUELLNER: Additional volume at the back of floor space, but no additional -- no number of gate increase. Still just two.

MR. MARTINELLI: Uh-huh. Okay. Thank you.

MR. WUELLNER: Uh-huh.

MR. YOUMAN: Question?

CHAIRMAN GREEN: Any more public comment?

MR. YOUMAN: I'm sorry.

(None.)

CHAIRMAN GREEN: Seeing no more public comment. Okay. Motions and discussions back to the board.

MR. YOUMAN: In building the project, I guess you'll be doing it in phases so that the current flights and customers won't be detained in any way?

MR. WUELLNER: Correct.

As you probably recall from previous Authority meetings, I mentioned that there'll be a suspension of Frontier service during the period January 4th through Apr -- we don't have a start date, but would be mid April at this point. So that period of the Frontier schedule is suspended. And that's the ideal time line to get the work done on this so we have minimal -- minimal interruption in there.

Page 25

warehouse large square footage type.

MR. YOUMAN: Okay. But I'm -- I'm just asking about St. Johns County itself. Do you know of any --

MR. WUELLNER: Honestly --

MR. YOUMAN: -- qualified bidders?

MR. WUELLNER: -- I do not know for sure. It's a pretty specialized kind of -- of concrete work versus just pouring a slab. So I do not have a firm answer for you.

MR. YOUMAN: Will there be any effort made to find out if there are such firms, to give them notice of the bids?

MR. WUELLNER: This is not bid in the traditional way. This is done as -- we're doing this as a design-build method. So it's up to the engineer to find qualified contractors to do this work. They're responsible for design and outcome of this job once a price is set.

So it's -- it's a little different than our traditional, what we call bid build where we build -- or create construction drawings and bid drawings and then it's sent out to anybody who wishes to bid.

MR. YOUMAN: Okay.

Page 26 1 MR. WUELLNER: They work very closely. The 2 idea here is we have a limited time to do this job 3 and a fairly specialized method of construction. 4 MR. YOUMAN: Will this flow through Passero --5 MR. WUELLNER: Yes. 6 MR. YOUMAN: -- to control the engineers and 7 the project, overall project? 8 MR. WUELLNER: Yes. In fact, they'll be the 9 only person -- or only company that we contract 10 with for the entirety of the work. It will be 10 11 their responsibility to find a contractor. 11 12 MR. YOUMAN: Passero itself? 12 13 MR. WUELLNER: Correct. 13 14 MR. YOUMAN: Okay. 14 15 MR. BURNETT: They will essentially be the 15 16 contractor on the job. 16 17 MR. YOUMAN: Very good. 17 18 MR. BURNETT: They'll hire out the subs. 18 19 MR. YOUMAN: Thank you. 19 20 CHAIRMAN GREEN: Yeah, that's the whole 20 21 purpose, to have the liability not -- but with 21 22 Passero and with the builder and --22 23 MR. YOUMAN: Right. 23 24 CHAIRMAN GREEN: -- contractor, so it protects 24

hear me, Cindy? Can you hear me, Cindy? MR. WUELLNER: Or just listen.

MR. YOUMAN: I'm a test.

MR. WUELLNER: It's like her first day.

CHAIRMAN GREEN: Okay.

FINAL DESIGN CONTRACT - TERMINAL

MR. WUELLNER: Okay. Terminal replacement

Page 28

project. I assume we're moving on.

CHAIRMAN GREEN: Yeah.

MR. WUELLNER: Final design contract authorization. This is Agreement 15-68 DB, "DB" standing for design-build. We're recommending that the design portion of that contract move to final authorization with Passero Associates at \$195,000. Reminder this is a 50/50 job with Florida DOT.

The build portion of the contract would be expected at your October meeting as previously mentioned, and we would like -- likely begin construction toward the end of November with getting footers and foundations and beginning of the wall sections themselves poured and placed.

If you have not witnessed this process of -as a construction method, it's kind of interesting because they -- they literally pour all of those walls laying flat on the ground, much like you do a

CHAIRMAN GREEN: Any more board?

(None.)

CHAIRMAN GREEN: Then I'll entertain a motion.

MR. COX: I move that we approve

Resolution 2015-07 as proposed by staff.

CHAIRMAN GREEN: Is there a second?

MR. YOUMAN: Second.

19 CHAIRMAN GREEN: All in favor?

MR. COX: Aye.

MR. YOUMAN: Aye.

CHAIRMAN GREEN: Aye. All opposed?

(None.)

CHAIRMAN GREEN: That resolution passes.

MR. YOUMAN: Can you hear me, Cindy? Can you

Page 29

driveway slab for an analogy here -- it's not quite the same, but -- and then when they're all done,

they lift them into place with a crane and

literally stand them up and weld them together.

The building takes shape very quickly. Typically in this case it probably will be ten days or less and the entirety of the exterior of the building will be completed. And then the trusses will be put into place and the roof on it. It's a very interesting and kind of fun way to watch a building go up because it just happens instantly.

The air traffic control tower as an example was put in place and -- and completely from ground up including placing the cab in place in about five days. Now, work was going on for several months ahead of time while they poured the various slabs that form the exterior, but it's a very interesting process to watch because the building happens very quickly.

If you're looking for a quick example, I happened to notice one the other day. As you're going U.S. 1 North coming into Bayard where that new Gran Bay pretty much where you get on 295 now, I guess it's 9-B at that point, if you look to the left over there, you see a brand new building with

Page 32

Page 33

brightly-colored panels on it that just showed up in the last two or three weeks. That's a building that's been done by de -- by tilt wall construction. So, it's very common in industrial kinds of buildings because it's quick and very strong. It allows a lot of free space in the interior of the building because of the wall structure compared to block.

MR. YOUMAN: What type of hurricane wind will it be able to withstand?

MR. WUELLNER: Well, county code requires that this building will meet 142 or 143 mile an hour wind loading. That's more than I intend to be in the building.

MR. YOUMAN: You'll be in the tower.

MR. WUELLNER: Yeah, I won't be there, in any building. Hoping to be somewhere else.

CHAIRMAN GREEN: Any other board discussion? (None.)

CHAIRMAN GREEN: Public comment? MR. MARTINELLI: Just one guick.

If you want to see an example of this type of construction, in Ponte Vedra right across where Pussers and that whole -- that was all that kind of construction.

ROOF REPLACEMENT ALTERATIVES 4762 US 1 N MR. WUELLNER: And the last action other than budget that I have for you today is -- pertains to 4762 U.S. 1.

Most of you will re -- recall this building as the old -- it was an old convenience store located at that -- in that spot. It's -- the building still exists. We bought it in an as-is condition with the understanding it may or may not be able to be used. That's -- that's how we bought it. Primarily we got such a good deal, we bought it for the property itself.

We've now come to the conclusion of a year of messing around with this that there are two viable options related to this building. One includes replacing the entire roof structure.

The roof as it exists is a very unusual product for Florida. It is a -- it is a -- essentially a gypsum board poured in place roof that -- for failure of membrane on the top of it over the years -- again this is a 30-year-old building -- water and Drywall material basically never mix, and this is basically filled with mold and the structural strength has gone away in rather large areas of the building. That leaves a viable

Page 31

Page 30

CHAIRMAN GREEN: Uh-huh.

MR. BURNETT: The Whetstone building at Flagler Hospital -- in front of Flagler Hospital is tilt wall.

CHAIRMAN GREEN: Right.

MR. WUELLNER: Yeah, the entire -- right across 312 there, almost all of those buildings on the right side as you go across the bridge on both sides, that's almost all tilt walls, and those are office buildings.

CHAIRMAN GREEN: Okay. No more public comment. Motion from the board?

MR. YOUMAN: I make a motion to accept final design contract as presented by the administration.

CHAIRMAN GREEN: Is there a second?

MR. COX: Second.

CHAIRMAN GREEN: Okay. All in favor of accepting staff's recommendation on Project 15-68

19 DB?

MR. COX: Aye.

MR. YOUMAN: Aye.

CHAIRMAN GREEN: Aye. Any opposed?

(None.)

CHAIRMAN GREEN: The agenda passes.

wall structure, if you will. It's largely two sections of a building. One was the original convenience store. The other side houses a car stereo repair spot in a currently much smaller piece of the building.

It could be repaired. It would require a complete replacement of the roof. Much to our disbelief internally, and I know my staff's tired of hearing me rant on this particular project, but it just seems insane that this is what it costs to put a roof on a building that's less than 4,000 square feet and meet today's building codes, because that's what would happen when we -- if we were to elect to replace it.

As a result, you know, we're -- we were looking at something as sort of a hip wall metal roof on wood stubs kind of roof, which would be the -- probably the best way to replace this, but that ends up at about \$180,000.

Now it's not something we're currently budgeted for. It's not in this year's budget. Not proposed for next. It would be something that would need to be allocated entirely out of reserves. It is not eligible for FDOT participation, meaning that entire sum of money

Page 34 Page 36 1 would need to come out of the Airport Authority's 1 tremendous liability with an empty building sitting 2 2 there -funds. 3 The other alternative to this of course is 3 MR. YOUMAN: Uh-huh. demolition of the bulling, completely remove 4 MR. COX: -- and people utilizing that 4 5 everything on that site, and -- and at some point 5 property outside of our oversight or anything else. 6 we just plant grass in it and wait on the eventual 6 MR. WUELLNER: Yeah. And it is -- if it 7 end use of this. With \$180,000 in place for -- to 7 didn't have the core issue of a complete 8 do this work, my -- I'll put it to you to decide 8 infestation of that roof with mold --9 which you want to do with this building. 9 MR. COX: Right. MR. WUELLNER: -- you know, which in itself is 10 I think the \$180,000, while it's a lot of 10 money, would be better matched with Florida DOT at its own problem, you may be -- things start making 11 11 12 some point in the future and build a new building 12 sense. But at this -- you've got to do something. It can't sit there in its current state any longer. 13 in a -- in a location that eventually complements 13 It's got to get completely removed, replaced, or --14 the site rather than this site being continually 14 modified to accommodate a building that's in that 15 MR. COX: My thoughts are that we take it 15 down. location. So I would be reticent to recommend 16 16 17 replacement. However, ultimately that's your call. 17 MR. YOUMAN: Is the building itself even worth 18 Demolition is what it is in terms of what it 18 \$180,000? 19 costs to do. That includes the permits, the hazmat 19 MR. WUELLNER: We only paid \$210,000 I 20 evaluation, things like asbestos and other -- other 20 think --21 items that are regulated, all of the demolition and 21 CHAIRMAN GREEN: For the entire -cleanup of that site also including the asphalt. MR. WUELLNER: -- for the entire property end 22 22 23 So this is where you tell me what you want to do 23 of it. So it's really hard to make a strong case 24 with this building. 24 to spend \$180,000. 25 CHAIRMAN GREEN: You don't want to start with 25 MR. YOUMAN: Yeah. When I -- when I saw that

MR. YOUMAN: How many years will it take to reclaim the \$180,000 with the current tenant in there?

MR. WUELLNER: Well, we were never able to lease the one part of it, but \$180,000 is -- you're only looking at 3500, 4000 square feet of building. Even at \$10 a square foot and you put all of it into it, is a long time.

MR. YOUMAN: Right. That's why --

MR. WUELLNER: And that's a very technical analysis there, but it's a long time just to get whole on the roof. That assumes we get no rent. Assuming they're willing to pay that. So it stops making sense pretty quick.

CHAIRMAN GREEN: Mr. Cox?

MR. YOUMAN: It seems --

MR. COX: I can't see any reason to keep the building there.

MR. YOUMAN: Pardon? Oh, I'm sorry.

MR. COX: So, is there any reason that you can think of for us to keep that building on that lot -- I mean, that property?

The other issue outside of leasing it obviously to somebody is that we've got a

Page 37

in the paperwork that Cindy sent out, I looked at it and said \$180,000, boy that -- and I said I wonder if that's that little building, and the first thing I thought of, why not just tear it down?

MR. WUELLNER: Honestly it --

MR. YOUMAN: For \$18,000 it cleans the property up and takes the liability away and --

MR. WUELLNER: It also creates a -- what I would call a clean slate for that 20 acres back there --

MR. YOUMAN: Right.

MR. WUELLNER: -- which allows kind of a holistic approach to whatever would be proposed for that in the master plan.

CHAIRMAN GREEN: What's our lease agreement with the stereo? Are we on a month-to-month?

MR. WUELLNER: We assumed the lease as a month-to-month, so it's not --

CHAIRMAN GREEN: That's not an issue there. MR. WUELLNER: Yes.

CHAIRMAN GREEN: We do have liability, if the county found anybody coming in there, we could possibly get problems with condemning it, getting assessed for it. So there's a lot of issues with

Page 38 Page 40 1 regards to the airport's liability by leaving it at MR. BURNETT: We have to -- we have to wait 1 2 2 that location. until 5:01 --3 I even on a joke volunteered a bunch of the 3 MR. WUELLNER: That's the public hearing. clerks and myself with all the stress we're going 4 CHAIRMAN GREEN: That's --4 5 5 through with the clerk's office over there, we'll MR. BURNETT: -- to start the budget meeting. 6 get some sledges and hammers and take it down 6 CHAIRMAN GREEN: Right. 7 7 ourselves, with some frustrations we're having. MR. BURNETT: So we'll end this meeting --8 But I don't -- I don't believe there's a question. 8 MR. YOUMAN: Gotcha. 9 I mean, the liability's too much, the building's 9 MR. BURNETT: -- at 5:01 and then we'll 10 not worth it, and we have other ideas for that 10 reconvene that meeting. property down the road that may be more useful. 11 11 MR. YOUMAN: All right. Thank you. MR. WUELLNER: Yeah, originally we thought it 12 12 MR. BURNETT: Yes, sir. 13 might be a good rental car facility, but there 13 MR. YOUMAN: I wasn't here for the TPO again, we're adapting a site to a building and, you 14 14 meeting. Bruce Maguire replaced me and he's not at know, it would be much much nicer to start from 15 15 the meeting today, so there is no report from the scratch and orient the building to something that airport unless you have one. 16 16 17 makes sense. 17 (Mr. Brunson enters the room.) 18 CHAIRMAN GREEN: True. Okay. Any public 18 MR. WUELLNER: Yeah, and actually he bailed on 19 19 it at about 8:45 Thursday morning, so no one did it comment, Mr. Martinelli? 20 20 MR. MARTINELLI: Demolish. No-brainer. 21 CHAIRMAN GREEN: Want to get a sledge hammer 21 CHAIRMAN GREEN: And I tried, but I was down 22 22 here. and join the group? 23 23 MR. YOUMAN: We finally got you to agree to MR. YOUMAN: Wow. 24 24 something. MR. WUELLNER: Yeah. 25 CHAIRMAN GREEN: No other public comment. 25 MR. YOUMAN: I do have one thing to pass out Page 39 Page 41 Okay. Motion from the board? 1 just for everybody's interest. I have six copies 1 2 MR. COX: I move to demolish the building. 2 I've made. 3 CHAIRMAN GREEN: Is there a second? 3 The St. Johns County projects under 4 MR. YOUMAN: I second. 4 construction and projects imminent -- will you pass 5 CHAIRMAN GREEN: Any further discussion? Just 5 this around just for the information of the board? 6 recall it's going to come out of reserves, but I 6 Pass it around -- hey, pass it around. Thank you. 7 7 think it's cost-effective. Give one to -- no, I don't want this. Give a copy 8 MR. COX: Well, it's ten times less than 8 to Ed. I know he really wants to read it. 9 9 putting a roof on, so... So I made my report. That's the end of my 10 CHAIRMAN GREEN: Exactly. So there's a motion 10 report. 11 and a second. All in favor of passing the --11 CHAIRMAN GREEN: Okay. Thank you. 12 MR. COX: Aye. 12 MR. YOUMAN: You're welcome, Chairman. 13 MR. YOUMAN: Aye. 13 CHAIRMAN GREEN: Mr. Brunson, do you want to 14 CHAIRMAN GREEN: -- motion? Aye. Any 14 take a breath? 15 opposed? 15 MR. BRUNSON: Well, the main problem was the 16 (None.) 16 elevator. 17 CHAIRMAN GREEN: Roof replacement demolition 17 MR. WUELLNER: Yeah. 18 18 CHAIRMAN GREEN: It's not working? Sorry passes. 19 MR. WUELLNER: Thank you. 19 about that. 20 CHAIRMAN GREEN: Okay. Mr. Martinelli, any 20 MR. BRUNSON: You'll get old one of these 21 public comment for us tonight? 21 days. 22 MR. MARTINELLI: Not tonight. 22 MR. WUELLNER: It's in the 80 percent 23 **AUTHORITY MEMBER COMMENTS** 23 recovery. CHAIRMAN GREEN: Member comments. Mr. Youman? 24 24 CHAIRMAN GREEN: Oh, the lightning strike? 25 MR. YOUMAN: Did we get by Resolution 2015-03? 25 Anything with EDC?

Page 42

MR. BRUNSON: No. I have nothing to report. I talked to the person with the chamber that heads that up. Nothing's going on too much right now.

CHAIRMAN GREEN: Okay.

MR. BRUNSON: Except the -- at Ponte Vedra they had the auto show.

CHAIRMAN GREEN: Yes, Sunday. Okay. Mr. Cox? MR. COX: No comment.

CHAIRMAN GREEN: All right. I did attend the aerospace academy meeting, which was well attended actually, and they are looking for a new chairman which they haven't elected yet.

We are on their agenda with regards to the nature area out back next to Bryan's walkway. And they did have some of the students come out and physically start hatcheting away and clearing that. So that's on their agenda for us at any rate which is very nice.

We also have the October 23rd I think through the 5th, which was the flight and something but now it's now the aerospace project where we have all of the kids coming out for all different variety of things going on here at the airport. And we're looking for volunteers.

If anyone can volunteer their time, mostly

So it's -- it's going very well. The -- the teacher was there and the students -- their student representative says he's very well liked. So they have a lot of projects going on. It seems to be going well. And our next meeting won't be for a couple of months, I guess. Yes, Mr. Youman?

MR. YOUMAN: Do you know if minority participation has increased at all?

CHAIRMAN GREEN: We did discuss that. Yes, it has. And I apologize, I meant to bring those numbers with me, but I was again waylaid up north. It has increased, not to the extent I think they would like, but yes, it has.

MR. YOUMAN: Good.

CHAIRMAN GREEN: And by minority, you mean female?

MR. YOUMAN: Female and African Americans. CHAIRMAN GREEN: I don't think they broke it down as much. I think they just lumped minorities in general.

MR. WUELLNER: The favorite term in the schools is free and reduced lunch --

CHAIRMAN GREEN: Yeah.

MR. WUELLNER: -- which catches everyone.

CHAIRMAN GREEN: Right.

Page 43

that's Sunday from 8:00 to 4:00. You don't have to be an expert in any of the activities that they're doing, which run from engineer to mechanics to flight, whatever. They just need help. So if you know anyone that can help with that.

And also, the academy is basically overbooked. They are now going to have to start to be more particular, grades, all kinds of things for people to get in. It's a highly sought after academy. It's also -- fortunately or unfortunately, it is a two-year program. If you go on your third year, meaning your junior year of high school, you kind of segue into Embry-Riddle, which is not a bad thing. It's just that most of the other academies have a four-year high school program, like biotech academy or some of the others in St. Johns County. So they're working on trying to get teachers at that level for the third and fourth year to keep kids in it.

So there is an attrition rate in that third year. So that's part of the focus that we're having, and also to look for internships for these kids. So if you hear of anything in that area, again it doesn't have to be specifically being a pilot; it's all aspects of it.

Page 45

Page 44

So -- but the interest in the academy has definitely increased tremendously, and I think that's a tribute to Embry, to Northrop, to I mean this airport. Because when I first started on this board in the early 2000s, it didn't exist. And that academy has just blossomed.

MR. YOUMAN: It has.

CHAIRMAN GREEN: So -- and then when it comes to the AAAE, I was going to -- speaking about marketing with regards to our commercial flight service to get words out, something we could do, I spoke with Elizabeth with our company and she is going to get some information for our board as to what they have done and ideas she has. Her company was very much a part of presenting that presentation at the AAAE. So at the next meeting we'll probably, or maybe even beforehand, have some information sent out as to how we're using Facebook, social media, et cetera, to get that information out.

Okay. Well, that's all I have. Now we have our next meeting date proposed obviously is next Monday, predicated upon the budget that we must have. And then the following board meeting would be October 19th, unless we hear otherwise from

		Page 46	
	1	board members.	
	2	MR. WUELLNER: 19th good for everybody?	
•	3		
		CHAIRMAN GREEN: October 19th, Monday?	
	4	MR. YOUMAN: Yes.	
	5	CHAIRMAN GREEN: Okay?	
	6	MR. BRUNSON: Yes.	
	7	CHAIRMAN GREEN: All right. Without hearing	
	8	any objection, we'll do it 4:00 October 19th, the	
١	9	next board meeting. And with that, we will adjourn	
١	10	for about 14 minutes before our public hearing on	
	11	the budget.
